## Forest Service Manual 2300:

**Ozark National Forest (N.F.)** ,1986      **Alabama National Forests Land and Resource(s) Management Plan (LRMP)** ,1986      **Tongass National Forest (N.F.), Navy Timber Sale** ,2009      **Forest Service Manual** United States. Forest Service,1970      **Tahoe National Forest (N.F.), Phoenix Project** ,2007      Environmental Impact Statement Land and Resource Management Plan ,1985      *Stewardship Across Boundaries* Richard L. Knight,Peter Landres,2013-06-17

Every piece of land no matter how remote or untrammelled has a boundary While sometimes boundary lines follow topographic or biological features more often they follow the straight lines of political dictate and compromise Administrative boundaries nearly always fragment a landscape resulting in loss of species that must disperse or migrate across borders increased likelihood of threats such as alien species or pollutants and disruption of natural processes such as fire Despite the importance and ubiquity of boundary issues remarkably little has been written on the subject *Stewardship Across Boundaries* fills that gap in the literature addressing the complex biological and socioeconomic impacts of both public and private land boundaries in the United States With contributions from natural resource managers historians environmentalists political scientists and legal scholars the book develops a framework for understanding administrative boundaries and their effects on the land and on human behavior examines issues related to different types of boundaries wilderness commodity recreation private public presents a series of case studies illustrating the efforts of those who have cooperated to promote stewardship across boundaries synthesizes the broad complexity of boundary related issues and offers an integrated strategy for achieving regional stewardship *Stewardship Across Boundaries* should spur open discussion among students scientists managers and activists on this important topic It demonstrates how legal social and ecological conditions interact in causing boundary impacts and why those factors must be integrated to improve land management It also discusses research needs and will help facilitate critical thinking within the scientific community that could result in new strategies for managing boundaries and their impacts      *Outdoor Recreation and Environmental Quality* Phillip O. Foss,1973      **Angeles, Cleveland, Los Padres, San Bernardino National Forests (N.F.), Revised Land Management Plans** ,2005

Bulletin - School of Forestry, Montana University University of Montana (Missoula, Mont. : 1965-1994). School of Forestry,1963      House Document ,1984      **Bulletin - School of Forestry, Montana University** University of Montana--Missoula. School of Forestry,1963      **Application of a Recreation-experience Components Concept for Comprehensive Recreation Planning** Monty L. Christiansen,1975      *Environmental Effects of Off-Road Vehicles* R. H. Webb,H. G. Wilshire,1983-05-23 This series is dedicated to serving the growing community of scholars and practitioners concerned with the principles and applications of environmental management Each volume is a thorough treatment of a specific topic of importance for proper management practices A fundamental objective of these books is to help the reader

discern and implement man's stewardship of our environment and the world's renewable resources. For we must strive to understand the relationship between man and nature, act to bring harmony to it, and nurture an environment that is both stable and productive. These objectives have often eluded us because the pursuit of other individual and societal goals has diverted us from a course of living in balance with the environment. At times, therefore, the environmental manager may have to exert restrictive control, which is usually best applied to man, not nature. Attempts to alter or harness nature have often failed or backfired, as exemplified by the results of imprudent use of herbicides, fertilizers, water, and other agents. Each book in this series will shed light on the fundamental and applied aspects of environmental management. It is hoped that each will help solve a practical and serious environmental problem.
