## **Fortress Of The Kingdom Archaeology And Research At Edinburgh Castle:**

**Fortress of the Kingdom** Gordon Ewart, Dennis B. Gallagher, 2014 Edinburgh Castle is one of the most familiar monuments in Scotland From modern shortbread tins and tea towels to historic paintings prints and maps its image has long been on prominent public display The scenic quality of the castle has been a consistent aspect of the monument throughout its eventful history whether as a multi towered medieval citadel dominating the city an ornate royal palace a military fortress bristling with cannon a dramatic backdrop to the eighteenth and nineteenth century New Town or ultimately a hugely popular tourist attraction Yet for all its familiarity as an iconic symbol of Scottish history the detail of that history and the story of those within its walls whether princes or prisoners are far less well appreciated Over some 30 years archaeological architectural and historical research has been commissioned by Historic Scotland and carried out alongside a steady programme of repair restoration and maintenance This has enabled the often fragmentary traces of the castle's evolution and community to be threaded together as a complete narrative This is the detailed history of a great castle a reflection of its colourful and complex story through its buildings and the lives of its occupants *Urban Heritage in Europe* Gábor Sonkoly, 2023-04-17 Urban heritage which is part of the conceptual expansion of cultural heritage has become an extraordinarily complex notion Any aspect of urban life and experience can become heritage and this heritage is then continuously reinterpreted and exploited as a source not only for a city's identification but also for its cultural and economic innovation This book provides a detailed overview of Central European urban heritage It examines the key aspects of urban heritage tangible monumental natural landscape world heritage urban quarter and heritage experience dark heritage The regimes of urban heritage approach retraces 200 years of the development of European urban heritage to understand how it has become so significant and how it could integrate practically every area of urban existence The novelty of the book is the interpretation of this development as a process of successive and integrating regimes which are examined through the changing urban heritage agency and discourse Through the examples of European cities and towns such as Belgrade Budapest Gdansk Krakow Ljubljana Subotica Szentendre Vienna but also Edinburgh Nordic cities and Rome these changes reveal their inner complexities and become comparable in an interdisciplinary analysis Further a particular aspect of the history of these cities is revealed through the development of their own urban heritage The book is primarily aimed at academics researchers and postgraduate students of cultural and economic geography cultural history culture and heritage management modern and contemporary history as well as urban history planning and sociology **The Fortress Kingdom** Paul Hill, 2022-10-21 In this the second part of his four volume military and political history of the Anglo Saxon kingdom Paul Hill follows the careers of the first Alfred the Great's eldest daughter and Edward the Elder Alfred's eldest son as they campaigned to expand their rule after Alfred's death They faced as Alfred had done the full force of Danish hostility during the early years of the tenth century a period of unrelenting turbulence and open warfare But through their military strength

in particular their strategy of fortress building they retained their hold on the kingdom and conquered lands which had been under Danish lords for generations the forces captured Derby and Leicester by both force and diplomacy Edward's power was always immense How each of them used forts burhs to hold territory is explored Fortifications across central England became key These included Bridgnorth Tamworth Stafford Warwick Chirbury and Runcorn the first and also Hertford Witham Buckingham Bedford and Maldon Edward to name a few Paul Hill's absorbing narrative incorporates the latest theories and evidence for the military organization and capabilities of the Anglo Saxons and their Danish adversaries His book gives the reader a detailed and dramatic insight into a very sophisticated Anglo Saxon kingdom

**Belmont Castle** Richard P. Harper, Denys Pringle, Anthony Grey, Robert Will, 2000 This is the final definitive publication of the excavations that were conducted by the British School of Archaeology in Jerusalem on the site of the Crusader castle of Belmont Suba in the Judean hills west of Jerusalem between 1986 and 1989 The excavations and associated documentary research indicate that Belmont began its existence as a manor house or maison forte in the first half of the twelfth century at that time it probably represented the country seat of a fief holding knight on the royal domain By the 1140s however the area in which Belmont lay had been acquired by the Hospital of St John which subsequently developed nearby Abu Ghosh identified as biblical Emmaus as the centre for an extensive estate Following the Hospitallers takeover while another former maison forte Aqua Bella was converted into a priory or infirmary building Belmont was extended and developed as a concentric castle dominating the landscape round about A polygonal outer ward was added to the original rectangular maison forte on the top of the hill and ranges of vaulted buildings were constructed within it This castle fell to Saladin in 1187 and was slighted by the Ayyubids in 1191 After this the site was occupied by a village until 1948 The account of the excavation is preceded by a historical introduction and a discussion of the castle's archaeological setting It is followed by specialist reports on the coins and tokens pottery ceramic lamps Persian seal impressions glass metalwork clay tobacco pipes and objects of stone bone and terracotta A detailed analysis and discussion is provided of the faunal remains and a concluding chapter discusses the castle's architecture and planning its military functions and its economic role within an agricultural estate that developed in the later twelfth century to produce food and revenue for the Hospital in Jerusalem
