Uso e manutenzione Use and Maintenance

Riempimento circuito impianto frenante

**Attenzione**

Il liquido impiegato nell'impianto frenante, oltre a danneggiare la vernice, è dannosissimo a contatto degli occhi o della pelle; lavare quindi abbondantemente con acqua corrente la parte interessata in caso di accidentale contatto.

Riempire i serbatoi (A) e (B) con olio prescritto (Sez. C 2) da un contenitore intatto.

**Importante**

Mantenere sempre a livello l'olio dell'impianto durante tutta l'operazione e lasciare l'estremità del tubo trasparente sempre immersa nel liquido scaricato.

Azionare diverse volte la leva o il pedale del freno per riempire l'impianto e spurgare l'aria. Collegare alla valvola di spurgo (2) o (4) lo spurgo.

**Note**

Quando si usa un attrezzo per lo spurgo del freno reperibile in commercio, seguire le istruzioni.

Filling the brake circuit

**Warning**

Brake fluid will damage painted surfaces if spilled on them. In addition, it will cause severe injury if spilled on the skin or into your eyes. In the event of accidental contact with skin or eyes, wash the affected area with abundant running water.

Fill the reservoirs (A) and (B) with specified brake fluid (Sect. C 2) from a sealed container.

**Caution**

During the next operation, the fluid level must remain topped up at all times. The end of the transparent plastic tubing must remain immersed in the discharged brake fluid at all times.

Operate the brake lever (or pedal) several times to let the fluid reach all points of the circuit and expel any air. Connect the brake bleeder to the bleed valve (2) or (4).

**Note**

If you are using a commercial bleeder, follow the manufacturer's instructions.

Remove the bleeder hoses and clamps.
