Deep Learning with Microsoft Cognitive Toolkit Quick Start Guide Willem Meints, 2019-03-28 Learn how to train popular deep learning architectures such as autoencoders convolutional and recurrent neural networks while discovering how you can use deep learning models in your software applications with Microsoft Cognitive Toolkit Key Features Understand the fundamentals of Microsoft Cognitive Toolkit and set up the development environment Train different types of neural networks using Cognitive Toolkit and deploy it to production Evaluate the performance of your models and improve your deep learning skills Book Description Cognitive Toolkit is a very popular and recently open sourced deep learning toolkit by Microsoft Cognitive Toolkit is used to train fast and effective deep learning models This book will be a quick introduction to using Cognitive Toolkit and will teach you how to train and validate different types of neural networks such as convolutional and recurrent neural networks This book will help you understand the basics of deep learning You will learn how to use Microsoft Cognitive Toolkit to build deep learning models and discover what makes this framework unique so that you know when to use it This book will be a quick no nonsense introduction to the library and will teach you how to train different types of neural networks such as convolutional neural networks recurrent neural networks autoencoders and more using Cognitive Toolkit Then we will look at two scenarios in which deep learning can be used to enhance human capabilities The book will also demonstrate how to evaluate your models performance to ensure it trains and runs smoothly and gives you the most accurate results Finally you will get a short overview of how Cognitive Toolkit fits in to a DevOps environment What you will learn Set up your deep learning environment for the Cognitive Toolkit on Windows and Linux Pre process and feed your data into neural networks Use neural networks to make efficient predictions and recommendations Train and deploy efficient neural networks such as CNN and RNN Detect problems in your neural network using TensorBoard Integrate Cognitive Toolkit with Azure ML Services for effective deep learning Who this book is for Data Scientists Machine learning developers AI developers who wish to train and deploy effective deep learning models using Microsoft CNTK will find this book to be useful Readers need to have experience in Python or similar object oriented language like C or Java

AI-Augmented Paralegal HEBooks, Tired of spending hours on repetitive legal tasks while AI powered tools reshape the profession faster than you can keep up The AI Augmented Paralegal cuts through the noise and gives you a clear practical roadmap to master AI tools that save time reduce errors and boost your value without needing a tech degree From automating document review to drafting smarter memos and streamlining workflows this book equips you with the real world skills to use AI confidently and ethically in your daily work No fluff No jargon Just actionable strategies for paralegals by a paralegal so you stay relevant efficient and ahead of the curve in today's AI driven legal world Your future in law isn't about resisting change it's about leading it

No-Code Artificial Intelligence Ambuj Agrawal, 2023-03-07 A

practical guide that will help you build AI and ML solutions faster with fewer efforts and no programming knowledge

KEY FEATURES Start your journey to become an AI expert today Learn how to build AI solutions to solve complex problems in your organization Get familiar with different No code AI tools and platforms

DESCRIPTION No Code Artificial Intelligence is a book that enables you to develop AI applications without any programming knowledge Authored by the founder of AICromo <https://aicromo.com> this book takes you through an array of examples that shows how to build AI solutions using No code AI tools The book starts by sharing insights on the evolution of No code AI and the different types of No code AI tools and platforms available in the market The book then helps you start building applications of Machine Learning in Finance Healthcare Sales and Cybersecurity It will also teach you to create AI applications to perform sales forecasting find fraudulent claims and detect diseases in plants Furthermore the book will show how to build Machine Learning models for a variety of use cases in image recognition video object recognition and data prediction After reading this book you will be able to build AI applications with ease

WHAT YOU WILL LEARN Use different No code AI tools such as AWS Sagemaker DataRobot and Google AutoML Learn how to create a Machine Learning model to predict housing prices Build Natural Language Processing NLP models for Healthcare information Identification Learn how to build an AI model to create targeted customer offerings Use traditional ways to perform AI implementation using programming languages and AI libraries

WHO THIS BOOK IS FOR This book is for anyone who wants to build an AI app without writing any code It is also helpful for current and aspiring AI and Machine Learning professionals who are looking to build automated intelligent and smart AI based solutions

TABLE OF CONTENTS 1 What is AI 2 Getting Started with No Code AI 3 Building AI Model to Predict Housing Prices 4 Classifying Different Images 5 Building AI Model to Perform Sales Forecasting 6 Building AI Model to Find Fraudulent Claims 7 Building AI Model to Detect Diseases in Plants 8 Building AI Model to Create Targeted Customer Offerings 9 Building AI Model for Healthcare Information Identification 10 Building AI Model for Video Action Recognition 11 Building AI Applications with Coded AI
