Collection in the Oberlin College Library: A supplementary volume containing reference lists: Anonymous plays, Title list, Composers, Printers, Theaters Oberlin College. Library,1946 **Transnational Dante** Heather Renee Sottong,2025-04-01 Opens the field of Dante Studies to further transnational studies of the Divine Comedy s circulation translation and global influence This fascinating book examines how Dante was repurposed by Argentine politicians and authors who were concerned with the construction of Argentine national identity in the late nineteenth and early twentieth

centuries Sottong's work is informed by the theories of Eric Hobsbawm, Benedict Anderson and Nicolas Shumway who coined the concepts of invented traditions, imagined communities and guiding fictions respectively. Sottong has applied these notions to the case of Argentina which after the War of Independence from Spain 1810-1818 had to develop its own national cultural identity. In this volume she investigates Dante's transnational influence in Argentina. Why did Argentine authors consistently call upon Dante in their attempts to develop Argentine literature? What are the textual and thematic characteristics of Dante's Divine Comedy that make it an ideal vehicle for literary appropriation? What are the historical and cultural factors that account for Dante's enduring popularity in Italy and beyond? How did the strong presence of Italians in Argentina influence cultural production in the developing nation? And how are the re-writings of Dante in the Argentine canon in dialogue with one another? What Sottong found remarkably was that rewriting Dante was a way for Argentine authors to voice their views on the direction that should be taken to develop Argentine letters. Dante became something of a literary guide as Argentine intellectuals navigated the complex labyrinth of their national identity. The consistent rewriting of the Divine Comedy in the Argentine context testifies to the fact that great works of literature can be revived during different periods and even reappropriated by various peoples to foster mythologies of inclusion or exclusion related to national identity.

Borges and Europe Revisited Evelyn Fishburn, 1998 This compilation of essays takes a fresh look at Borges's work. A wide variety of topics ranging from the European avant garde to the impact of European science upon Argentine literature is discussed from a multiplicity of angles, the only unifying factor being the year 1996 when nearly all the essays were written. Most of them were presented as papers at a one-day conference held at the Institute of Romance Studies in conjunction with the Institute of Latin American Studies. The purpose was to re-examine the work of Borges in the wake of the great changes in reading that theory had brought about and which Borges had somehow foreshadowed, though of course not systematised. Contributors include Daniel Balderston, University of Iowa; Malcolm Bowie, University of Oxford; Gabriel Josipovici, University of Sussex; Bernard McGuirk, University of Nottingham; Sylvia Molloy, New York University; Eduardo L. Ortiz, Imperial College; William Rowe, Birkbeck College, London; Jason Wilson, University College, London.
