The Discourse of Kingship in Classical Greece Carol Atack, 2019-10-11 This book examines how ancient authors explored ideas of kingship as a political role fundamental to the construction of civic unity the use of kingship stories to explain the past and present unity of the polis and the distinctive function or status attributed to kings in such accounts It explores the notion of kingship offered by historians such as Herodotus as well as dramatists writing for the Athenian stage paying particular attention to dramatic depictions of the unique capabilities of Theseus in uniting the city in the figure of the democratic king It also discusses kingship in Greek philosophy the Socratic identification of an art of kingship and Xenophon and Isocrates model of virtue monarchy In turn these allow a rereading of explorations of kingship and excellence in Plato s later political thought seen as a critique of these models and also in Aristotle s account of

total kingship or pambasileia treated here as a counterfactual device developed to explore the epistemic benefits of democracy This book offers a fascinating insight into the institution of monarchy in classical Greek thought and society both for those working on Greek philosophy and politics and also for students of the history of political thought *World Literature Decentered* Ian Almond,2021-07-13 What would world literature look like if we stopped referring to the West Starting with the provocative premise that the West is ten percent of the planet *World Literature Decentered* is the first book to decenter Eurocentric discourses of global literature and global history not just by deconstructing or historicizing them but by actively providing an alternative Looking at a series of themes across three literatures Mexico Turkey and Bengal the book examines hotels melancholy orientalism femicide and the ghost story in a series of literary traditions outside the West The non West the book argues is no fringe group or token minority in need of attention on the contrary it constitutes the overwhelming majority of this world *Corporal Rhetoric* Barbara Schneider,2021-08-03 Examines public discourse from the Progressive Era over the state s right to regulate women s bodies and their reproduction **Writing and Grammar: Communication in Action** Pearson/Prentice Hall,Joyce Armstrong Carroll,2004 *The Myth Connection* Chitra Sankaran,1993 **The True Believers** Robert Milton,2005-10-18 In this timely but controversial book Dr Robert Milton offers new scientifically oriented explanations for the events of 9 11 and 7 7 The attacks on the World Trade Center the Pentagon and London mass transit says Dr Milton represents an unsavory historical summit a kind of new age related to genetic neurological and psychological motivation The Golden Age of Terrorism is upon us The why he answers with compelling succinctness is because we learn to believe before we learn to think While he gives a realistic nod of acknowledgment to economic inequities abject poverty and exploitation of Middle East oil as contributors to Terrorism he pursues to a logical scientific end what he calls a still more basic cause the motivations of belief While Western Imperialism the US support of Israel and the war in Iraq capture the headlines as primary causes of todays Terrorism Dr Milton demystifies the myriad of alleged causes put forth by politicians and the media even agreeing with those who say the emergence of Islamic extremism as a result of Quran teaching is preposterous True Says Dr Milton it is not the words of any scripture Christian or Muslim that cause the problems of Terrorism It is belief in interpretations of them To instill a particular religious belief as the prime motivating directive is the goal of terrorist training How such beliefs obtain and remain within our nervous systems is the subject matter of this book The tendency to believe this book asserts is hardwired into the human nervous system The content is not Perhaps we have no more choice about believing than we do about the color of our eyes The cultural psychological and neurological basis of belief is explored and exposed revealing one enlightening twist after another Even the chapter on intelligent design which Dr Milton as a scientist advocates reveals still another point of view Terrorisms Golden Age is timely update on the sciences related to malevolent human motivation
