The book includes an in-depth discussion of policy borrowing, emphasizing its political nature to provide an understanding of globalization's impact on education. Portnoi interrogates the dominance of the Global North and the influence of the global governance organizations that serve as the core of the aid and development regime. [Resort Spatiality](#) Zelmarie Cantillon, 2018-10-16 This book theorises resorts as distinct kinds of urban milieux capturing the complexity of destinations famous for sun, sand and sex, mass tourism. Drawing on qualitative field research, participant observation, interviews and photography, the book discusses examples from six international resort destinations spread across four continents: the Gold Coast, Australia; Phuket and Koh Phangan, Thailand; Cancun, Mexico; Miami, USA; and Ibiza, Spain. The book reviews the material and symbolic production of lived spaces in these resorts, considering the mutually constitutive, mutually transformative relations between their spatial formations, built environments, popular imaginaries, representations, narratives of identity, rhythms and the experiences and practices of both tourists and locals. In doing so, it argues for more nuanced ways of conceptualising tourism, globalisation and spatiality, reimagining how these phenomena unfold in lived spaces. Taking a cultural studies approach to urban analysis, the book demonstrates the value in embracing complexity, fluidity, partiality and uncertainty. It will be of interest to students and researchers of tourism, geography, cultural studies, development studies, anthropology and sociology. **Globalization** George Ritzer, Paul Dean, 2021-11-08 An accessible and comprehensive introduction to key concepts in globalization, written by leading authors in the field.
