Literary Visions Elizabeth Penfield, 2006-08-25 Literary Visions is a video instructional series on literary analysis for college and high school classrooms and adult learners. Noted critics, authors, scholars, and actors enliven this exploration of literature and literary analysis. Dramatizations, readings, and discussions build skills in critical thinking and writing. Illuminating excerpts of short fiction, poetry, plays, and essays, both classic and contemporary, highlight standard literary forms and devices including plot, myth, setting, and character. This course, containing 26 half-hour videocassettes, can be used as a complete college-level course, as supplementary material in courses in literature, composition, poetry, drama, or those focusing on specific topics and genres within literature, as an offering for adult or continuing education students, as an important addition to library video collections, and as enrichment material for advanced high school curricula. Visit <http://www.learner.org/resources/series41.html> for more information. Our Literary Visions Study Guide, an accompanying study guide for the Literary Visions program, contains information about each lesson, objectives, goals, lesson assignments, a viewing guide, formal and informal writing exercises, self-tests, additional reading activities, and an overview of each video lesson. All the works covered in the videos and study guide are found in Roberts, Literature: An Introduction to Reading and Writing, 8th ed. This study guide is salable to students.

English Journal, 1999. Second-language Classroom Interaction Ann C. Wintergerst, 1994. This book analyzes teacher and student interaction in the context of twelve ESL lessons with the purpose of exploring the extent of student language output. Research has confirmed that teacher speech dominates the second language classroom. Not surprisingly, teacher talk has been investigated in numerous studies, but student talk has been largely overlooked. This study addresses that imbalance. Questions are one means of engaging student attention, promoting verbal responses, and evaluating student progress. They facilitate interaction by establishing the topic, the speaker, and the respondent. However, as the author shows, some teacher questions encourage communication while others inhibit it. In this analysis of teacher and student questions and answers, Professor Wintergerst offers a new perspective on second language development and classroom learning in general.
