**Handbook of International Climate Finance** Michaelowa, Axel,Sacherer, Anne-Kathrin,2022-10-14 The concept of international climate finance channelled from developed to developing countries through public interventions for mitigation and adaptation has been developed over the last decade but its roots date back to the early 1990s Despite the high relevance of the topic in the international climate negotiations illustrated by the missed target to mobilise USD 100 billion by 2020 there is no book that provides an overview accessible to academics and practitioners alike Vulnerability and Violence Peadar Kirby,2005-12-20 Vulnerability is now a key term in globalisation studies It is used to describe how globalisation impacts on individual security local communities and even global flows of trade finance and investment Yet there has been little attempt to interrogate the term and what it is trying to express about globalisation Peadar Kirby examines what is really meant by vulnerability and links it to new forms of violence that have resulted from decreased security and social cohesion He argues that vulnerability and violence are characteristic features of a new world order dominated by neoliberal globalisation Illustrating his argument with a wealth of examples taken from all over the world from the sudden collapse of the middle class in Argentina to increased levels of poverty internationally he offers a robust theoretical grounding that will be of use to anyone studying vulnerability and violence and their relation to contemporary globalisation **Perspectives on Global Development and Technology** ,2005 *The Gendering of Global Finance* L. feminist theory but of gender and sexuality across the humanities and social sciences
