Globalization And Belonging Globalization And Belonging:

Globalization and Belonging Michael Savage, Gaynor Bagnall, Brian J Longhurst, 2005 Drawing on long term empirical research into cultural practices lifestyles and identities *Globalization and Belonging* explores how far reaching global changes are articulated locally The authors address key sociological issues of stratification as analysis alongside cultural issues of identity difference choice and lifestyle Their original argument Shows how globalisation theory conceives of the local reveals that people have a sense of elective belonging based on where they choose to put down roots Suggests that the feel of a place is much more strongly influenced by the values and lifestyles of those migrating to it reinvigorates debates in urban and community studies by recovering the local as an intrinsic aspect of globalization **To the Parishioners of St. Sepulchre, London & Middlesex ...**, 1878

Globalization and Belonging Sheila Croucher, 2003-08-04 In a world of instant communications permeable borders immigration quotas and terrorist bombings we might well stop and ask Who are we How do we identify ourselves and claim identity in a competing tug and pull of global homogenization and fragmentation Are we Italians or European Unionists Are we Muslims or ethnic Arabs Are we residents of one state citizens of another Are we women no matter where we go This book explores how various forms of sociocultural and political identification and attachment are being affected by the increasing interconnectedness of the globe It looks at the forces of globalization economic technological political and cultural and relates them to forces of identification including citizenship nationhood ethnicity and gender Through it all author Sheila L Croucher emphasizes the sense of belonging and its importance to us as individuals and as citizens of the world Citizenship and Migration Stephen Castles, Alastair Davidson, 2020-06-30 This book argues that basing citizenship on singular and individual membership in a nation state is no longer adequate since the nation state model itself is being severely eroded It examines issues of citizenship and difference in the Asia Pacific region

The Language of Belonging U. Meinhof, D. Galasinski, 2005-08-10 This examines a significant aspect of contemporary social life cultural identities and our linguistic means of constructing them It combines a theoretical re assessment of processes of identification with case studies of the discourses of three generation families living in split border communities along the former Iron Curtain Globalisation, Diaspora and Belonging Sharmina Mawani, Anjoom A. Mukadam, 2014 The term identity has become fashionable both inside and outside the sphere of academia It has evolved so that it incorporates both a means of talking about individuality community and cohesion as well as a way to comprehend the interaction between one s experiences of the world and the cultural and historical spheres in which those perceptions are formed The notion of belonging is complex in nature and the need to belong is a necessity for individuals in society The creation of a sense of belonging is a multifaceted dynamic process that does not require an individual to select one solitary group to which they may belong It is through the processes associated with achieving a sense of belonging that individuals shape their identities This collection focuses upon the experiences of the Gujaratis an ethnic group in India The book highlights the unique ways

that globalization migration language culture and othering shape perceptions of belonging To capture some of the complexities that characterize Gujarati identities the book is categorized thematically into three sections 1 Globalization and Migration 2 Language and Culture and 3 Inclusion and Exclusion Each chapter is richly illustrated with excerpts from interviews and narratives from Gujaratis who are attempting to belong and find acceptance in a variety of settings around the world including Australia Canada the Democratic Republic of the Congo India Oman Singapore South Africa the United Kingdom and Zanzibar The book offers an insightful perspective that provides readers with a comprehensive overview of historical and contemporary issues surrounding notions of Gujarati identity

The Politics of Multiple Belonging Flemming Christiansen,Ulf Hedetoft,2004 This international collection examines how ethnic identity and belonging are created and used politically in Europe and East Asia The contributors respond to debates about whether and how regional supranational transnational and multicultural identities may compromise nation states and how nation states deal with such centrifugal forces The issues are discussed from various perspectives diasporic communities the State and its role in inventing and influencing national belonging and societies and communities with a strongly engineered multicultural structure Two central theoretical chapters examine the current debates on belonging and multiculturalism bringing together this complex field and developing new perspectives In particular the volume improves our understanding of how people belong in different contexts by examining how they give shape to belonging it is possible to understand how these diverse trends cohere within nation states and across continents

A Research Agenda for Border Studies James W. Scott,2020-12-25 This innovative Research Agenda uncovers links between different levels of border making processes or bordering from the political to the cognitive and connects everyday processes and experiences of border making to the wider social world It addresses the question of how everyday bordering practices and discourses can be productively linked to different aspects of social relations

Remapping Gender, Place and Mobility Stine Thidemann Faber,Helene Pristed Nielsen,2016-03-03 Enhancing our understanding of how people and places are affected by globalization at the level of everyday interactions within Nordic Peripheries this book sheds light on local particularities as well as global confluences by illuminating how gender mobility and belonging contribute to ruptures and or stability in the lives of men and women living in and or moving within these northern localities Crossing disciplinary and geographical boundaries the focus of the book is specifically on how global processes shape and influence the Nordic countries at the social level Denmark Norway Sweden Iceland Finland as well as the Faroe Islands The book starts from the premise that the Nordic peripheries offer an especially powerful lens on peripherality in a globalized and globalizing world because the region as a whole is traditionally perceived as relatively affluent stable and with high levels of social equality Yet as the different chapters in the book demonstrate with case studies that illuminate diverse gendered processes globalization produces ruptures and new social constellations also at the rims of Nordic societies well beyond the cushioning of comprehensive social welfare regimes By elevating the empirical findings to

more general debates about the gendered effects of globalization the book invites the reader to reflect upon not only Nordic particularities but also how insights from this part of the world can be instructive for understanding the nuances and complexities of global confluences at large Belonging and Globalisation Kamal Boullata,2008 A collection of important contributions to the global discussion of place and identity from leading artists and cultural critics *Doing Social Science* Fiona Devine,S. Children and Youth Studies Johanna Wyn,Helen Cahill,Hernán Cuervo,2024-08-20 This second edition of the handbook gives a new scientific perspective to youth and childhood studies as multi scientific and interdisciplinary subjects which as such have not yet found their own framing in a particular discipline It provides theoretical and methodological key debates and issues that develop and add an understanding of childhood and youth research discipline from a broader perspective The Handbook on Children and Youth Studies draws on current thinking but also challenges theoretical and conceptual orthodoxies in the field drawing on interdisciplinary thinking and critical perspectives It focuses on childhood and youth to address the emerging consensus that the boundaries between childhood youth and adulthood are blurred The view that defining youth and childhood largely in terms of problem topics is out dated Instead the handbook focuses on 16 themes that are open to international perspectives and to different conceptual approaches Each theme is edited by a pair of field editors thereby capturing a plurality of views The 16 themes as a starting point are globally timely and they need scientific debates on the boundaries between childhoods youth and adulthood This handbook will meet the needs of childhood and youth researchers and the academics in the field It recognizes the changing social context of the lives of children and young people while developing theoretical frameworks and discussing about the core substantive issues of Children and Youth Studies
