Library Editions: Energy Various, 2021-07-09 Reissuing works originally published between 1964 and 1994 this set of ten volumes is an excellent collection of works on energy production and consumption economics and policy conservation and the crisis International in scope the volumes look at household energy conditions energy in the developing world political history and various other issues within the world of fuel and power This set is a resource for environment studies economics policy and politics sociology geography and other studies considering the use of energy in our world Investing Volatile Oil Revenues in Capital-Scarce Economies Christine J. Richmond, Irene Yackovlev, Ms. Susan S. Yang, 2013-06-12 Natural resource revenues are an increasingly important financing source for public investment in many developing economies Investing volatile resource revenues however may subject an economy to macroeconomic instability This paper applies to Angola the fiscal framework developed in Berg et al forthcoming that incorporates investment inefficiency and absorptive capacity constraints often encountered in developing countries The sustainable investing approach which combines a stable fiscal

regime with external savings can convert resource wealth to development gains while maintaining economic stability
 Stochastic simulations demonstrate how the framework can be used to inform allocations between capital spending and
 external savings when facing uncertain oil revenues An overly aggressive investment scaling up path could result in
 insufficient fiscal buffers when faced with negative oil price shocks Consequently investment progress can be interrupted
 driving up the capital depreciation rate undermining economic stability and lowering the growth benefits of public
