Explorer Race Origins And The Next 50 Years Explorer Race Series:

Explorer Race Robert Shapiro,1998-05 **Scopes of Dimensions** Janet McClure,1989-06-01 A shift in consciousness has occurred on the planet during the past twenty five years marking a new moment in the evolution of humanity's consciousness concerning our relationship to Earth and to the cosmos We now accept that human beings are interacting with a living planet and we understand that this living planet has an energetic relationship to the galaxy We have also come to understand that the entire biological and energy system of this beautiful planet we live on is totally dependent on how humans treat the planet the environment and other life forms on Earth Biorelativity describes the ability of human beings to telepathically communicate with the spirit of the Earth The goal of such communication is to influence the outcome of natural Earth events such as storms volcanoes and earthquakes This book is a collection of channeled lectures through Arcturian Native American and other mystical guides transmitted in sessions from 2009 through early 2011 that describe *First Contact* Tom T. Moore,2013 This book will assist you with your ascension process These are glorious times indeed and as you raise frequency and let go of the past a new you is emerging You are not alone in this process and many intelligences energies and friends are supporting you and your purpose We are part of this support team and as you reach new heights so do we We ascend just as you do to higher and higher frequencies and more glorious light Please join us in this adventure Since you have free will you control your part in this project Sometimes it may seem that you have no choice in this endeavor but you have From the higher levels you have all chosen to ascend St Francis **This School Called Planet Earth** Summer Bacon,2005-11-01 A journey for the greater truths and awareness **Shining the Light V** Robert Shapiro,Arthur Fanning,1998 The light of truth shines on Revelations about Area 51 by a rocket scientist A 75 year long Zeta restructuring of the past Cloning the new ethics forum Recent UFO activity in the skies The angel of Roswell The first Earth humans and the original dark side our shadow Angels guides in training 30% of humans are angels Using manifestation powers to avert man made disasters Symbiotic spacecraft engines and faster than light travel The true purpose of the Mayans The SSG downs military planes Grid lines rising above the planet The SSG realizes they need customers not slaves Homework for changing your past Zoosh and others blast the cover off past events and hidden forces at work on this planet and reveal opportunities for immense growth and power This is a pivotal time as the secrets and mysteries that have long bewildered humanity are at last illuminated by the light of truth Zoosh the End Time Historian and one of the eight friends of the Creator was with our Creator before this creation and has been with us ever since He says our greatest gift in this creator training school is our gift of ignorance In forgetting what we know we go beyond our limitations He is witty wise and compassionate He says about himself It has been my job and my purpose in life to follow the birth of your souls on your journey to re create the universe I have to nurture that sense of mystery it's not as if you're going to have it forever *Aha!* Janet McClure,1995-01-01 Change your life Change your transitions Reach beyond unnecessary limits Empower yourself Take a

new look at healing health life even death and at daily challenges and transitions Take a journey into the infinite realm of unbounded hope an possibility of healing transformation and transcendence and of heightened consciousness Discover what must shift for our minds to open to heightened awareness and powers Find out what it is that keeps us from knowing all we can know about who we are and what we are able to do in and beyond our physical existences Step into the Continuity of Life and walk on This Volume One of the Continuity of Life series ENDINGS ARE BEGINNINGS a very important little book to have on hand to share with family and friends to leave around for others to pick up read and change their lives The Heart of Numerology Lynn Buess,2012 Perhaps you have read a little about numerology and wondered just how it manages to reveal so much If you have been looking for more information to take you beyond the elementary texts and teachings of numbers you have come to the right place By choosing the study of this symbolic matrix you have chosen a path that can take you into the most sublime heights and penetrating depths of human consciousness and beyond Do you want to know a secret Many of them can be revealed as you weave your way through a multidimensional journey of symbolic delight that numerology presents Lynn Buess MA EdS has served more than one half of a century studying teaching and counseling in the field of symbols cycles and numbers Lynn is well qualified to be the one to outline this journey and help show you the way He is the only practicing professional numerologist to have completed two accredited graduate degrees in which he specialized in the meaning of numbers and symbols and the psychological application of these symbols to life In his teaching he reveals the psychology cosmology and spirituality of numerology To him numbers are not a static set of symbols rather they are like cosmic chords of sound and light that help make up the rhythms of the cosmic dance Would you like to dance *Creators and Friends* Robert Shapiro,1998-02-01 Humanscreators in traininghave a purpose and destiny so heartwarmingly profoundly glorious that it is almost unbelievable from our present dimensional perspective Humans are great lightbeings from beyond this creation gaining experience in dense physicality by slowing down the creative process in order to feel the results and consequences of their decisions and actions This truth about the great human genetic experiment of the Explorer Race and the mechanics of creation is being revealed for the first time by Zoosh and his friends as humanity begins to awaken to its true nature Zoosh and a great assortment of beings who have never spoken to the physical plane beforefrom particles to All That Isspeak vibrantly through superchannel Robert Shapiro Each personality has its own knowing perception and expertise as it shares its history its present focus and the awesome truth about humanity s mission The books read like adventure stories as we follow the clues from this creation we live in out to the Council of Creators and beyond As we explore the greater reality beyond our planet our galaxy our dimension our creation we meet prototypes designers shapemakers creators creators of creators and friends of our Creator who explain their roles in this creation and their experiences before and beyond this creation As our awareness expands about the way creation works our awareness of who we are expands and we realize that a part of ourselves is in that vast creation and that we are much greater and more magnificent than even

science fiction had led us to believe Join us in the adventure of discovery It s mind stretching **Particle Personalities**
 Robert Shapiro,1998-02-01 All around you in every moment you are surrounded by the most magical and mystical beings
 They are too small of course for you to see as single individuals But in groups you know them as the physical matter of your
 daily life They form all of your physical life as you know it Particles who might be considered either atoms or portions of
 atoms consciously view the vast spectrum of reality yet also have a sense of personal memory like your own linear memory
 These particles remember where they have been and what they have done in their infinitely long lives Particles then have a
 unique and unusual perspective In reading this book understand that some of them will have similar points of view but others
 will have quite extraordinary and unexpected points of view Expect the unexpected **Origins and the Next 50 Years**
 Robert Shapiro,1997-01-01 The accounts given by extraterrestrials in this volume are about events that occurred in our solar
 system many millions of years ago In that ancient time the solar system consisted of four planets and four radiar systems that
 orbited the central sun The four planets of the solar system are known today as Venus Earth Mars and a now totally
 shattered world that was called Maldec The term radiar applies to the astronomical bodies we presently call Jupiter Saturn
 Uranus and Neptune The original satellites of these radiars are generally called moons by Earth astronomers but the
 extraterrestrials prefer to call them planetoids This book reflects the personal views of a number of different types of
 extraterrestrials regarding the state of the local solar system and the state of the Earth **Books In Print 2004-2005** Ed
