Cities' Identity Through the Art of Urban Spaces Gasim Hayder, Mohd Fairuz Shahidan, Ayse Ozcan-Buckley, 2025-11-20 Each city from across the globe has its vibrant shades of various histories, cultures, and experiences, and their identities are often most expressed through architecture and the arts. The cities' identities are the unique combination of history, culture, architecture, and social dynamics that define urban environments. Each city expresses its own distinct character shaped by factors such as geography, historical events, and the various communities that inhabit it. This identity is expressed through multiple elements including popular landmarks, local traditions, and the arts, all of which contribute to the city's narrative. Cultural heritage preservation is not only for maintaining diversity but also for promoting social bonds and communities. It encourages a deeper appreciation of our shared humanity and the rich unions of human experience. By protecting these legacies, we ensure that future generations can connect with their roots and celebrate the richness of cultural expression. **Cities Identity through the Art of Urban Spaces** seeks to explore and celebrate the distinctive character of urban environments by examining how architectural designs and artistic landmarks reflect and shape the narratives of their communities.

The chapters provide a comprehensive exploration of modern retail, discussing its growth and future, identifying consumer preferences, as well as suggesting solutions to the challenges that retailers and suppliers on the continent face in developing the sector.
