

The background of the cover is a photograph of a vast, rolling landscape. In the foreground, a wide, light-brown dirt road with two distinct tracks curves from the bottom right towards the center of the image. The road is flanked by lush green grass. Beyond the road, the landscape consists of rolling green hills and valleys. Some areas appear to be cultivated fields, while others are covered in dense green vegetation. In the distance, there are more hills and a small cluster of buildings, possibly a village. The sky is a clear, vibrant blue, dotted with several soft, white clouds. The overall scene conveys a sense of openness, tranquility, and a journey into the unknown, which aligns with the book's title 'Exploring Philosophy'.

Exploring Philosophy Steven M. Cahn, 2023-08 Those who begin the study of philosophy may easily become discouraged Many classic texts are daunting in their complexity and much contemporary writing is intended primarily for a professional audience A few prominent philosophers of our day write in a style understandable by all but nonspecialists are often left unaware of this work They may never realize that serious discussion of central problems of philosophy can proceed without arcane terminology unexplained references or convoluted arguments The guiding principle of this book is that reading clear concise essays by recent philosophers offers an inviting avenue to understanding philosophical inquiry While some of the articles are reprinted in their entirety many are shortened to sharpen their focus and enhance their accessibility For readers who wish to understand the development of philosophy over the centuries I have included a substantial number of historical sources including without abridgement Plato's *Defense of Socrates* *Crito* and *Meno* as well as substantial segments from his *Republic* Descartes' *Meditations on First Philosophy* and Hume's *An Enquiry Concerning Human Understanding* and *Dialogues Concerning Natural Religion* Most of these are identified by the name of the work from which the selection is drawn while with regard to some of the recent essays I have taken the liberty of developing short descriptive titles

Exploring Ethics Steven M. Cahn, 2022-04-26 In this remarkably accessible concise and engaging introduction to moral philosophy Steven M Cahn brings together a rich balanced and wide ranging collection of fifty two readings on ethical theory and contemporary moral issues He has carefully edited all the articles to ensure that they will be exceptionally clear and understandable to undergraduate students The selections are organized into three parts Challenges to Morality Moral Theories and Moral Problems providing instructors with flexibility in designing and teaching a variety of ethics courses Each reading is followed by study questions

God and Evidence Rob Lovering, 2013-06-20 *God and Evidence* presents a new set of compelling problems for theistic philosophers The problems pertain to three types of theistic philosopher which Lovering defines here as theistic inferentialists theistic non

inferentialists and theistic fideists Theistic inferentialists believe that God exists that there is inferential probabilifying evidence of God's existence and that this evidence is discoverable not simply in principle but in practice Theistic non inferentialists believe that God exists that there is non inferential probabilifying evidence of God's existence and that this evidence is discoverable not simply in principle but in practice Theistic fideists believe that God exists that there is no discoverable probabilifying evidence inferential or non inferential of God's existence and that it is nevertheless acceptable morally if not otherwise to have faith that God exists Lovering argues that each type of theistic philosopher faces a problem unique to his type and that they all share two particular problems Some of these problems take us down an entirely new discursive path others down a new discursive path branching off from an old one
