

The background of the book cover is an abstract composition of various colored lines and shapes. There are numerous thin, light-colored lines crisscrossing the entire surface. Overlaid on these are thicker, more vibrant strokes in shades of red, blue, yellow, green, and pink. Some of these strokes form elongated, leaf-like or feather-like shapes. The overall effect is a dynamic and layered visual texture.

Inside Abstraction Carolyn Dean, 2025 Why did the Inka especially in their most prominent examples of visual culture elite garments vessels at imperial feasts public stonework prefer abstract designs Carolyn Dean argues that what may appear to be abstract is actually something else something beyond abstract Inka designs Dean believes were demonstrations of proper relationships informed by context and imbued with agency such that the viewer is invited to participate The geometric forms experience the relationships they model In so doing the geometric configuration itself is a teacher alongside agentic materials and the self revelatory process of creation Once the category of teacher is opened to include geometric configurations we see how they could model actions Nevertheless viewers must do for themselves The Inka state carefully choreographed the contexts of viewing so as to encourage imperial subjects to think through and within design locating themselves within networks of relationships on multiple scales In this way non objective configurations served the Inka s imperial goals dependent on an acceptance of and submission to Inka order It s important to understand that relationships and ideas reflected in the designs are not Dean suggests narrowly static but rather open ended Two viewers might see different obligations in the designs depending on where the viewer fits into Inka society but the underlying principles and general submission to an Inkan worldview are consistent
