**Proceedings of SECON'21** Giuseppe Carlo Marano, Samit Ray Chaudhuri, G. Unni Kartha, P. E. Kavitha, Reshma Prasad, Rinu J. Achison, 2021-09-03 This book gathers peer reviewed contributions presented at the International Conference on Structural Engineering and Construction Management SECON 21 held on 12-15 May 2021. The meeting served as a fertile platform for discussion, sharing sound knowledge and introducing novel ideas on issues related to sustainable construction and design for the future. The respective contributions address various aspects of numerical modeling and simulation in structural engineering, structural dynamics and earthquake engineering, advanced analysis and design of foundations, BIM, building energy management and technical project management. Accordingly, the book offers a valuable up-to-date tool and essential overview of the subject for scientists and practitioners alike and will inspire further investigations and research.

Proceedings ... International Conference on Ground Control in Mining , Computational and Experimental Simulations in Engineering Kun Zhou, 2024-08-20 This book gathers the latest advances, innovations and applications in the field of computational engineering as presented by leading international researchers and engineers at the 30th International Conference on Computational bioengineering, geotechnical engineering, offshore multi-scale structural integrity, materials design and computer modeling methods in engineering. The contributions, which were selected by means of a rigorous international peer review process, highlight numerous exciting ideas that will spur novel research directions and foster multidisciplinary collaborations.

*Proceedings of the 2nd International Conference on Advanced Civil Engineering and Smart Structures* TianQiao Liu, Enlong Liu, 2024-03-13 This book presents the proceedings of the 2nd International Conference on Advanced Civil Engineering and Smart Structures ACES2023 held on November 25-26, 2023 in Chengdu, China. ACES2023 successfully brought together innovative academics and industrial experts from the field of civil engineering and smart structures to a common forum. The conference featured a special schedule comprising thought-provoking keynote speeches, thematic invited speeches, sessions and panel discussions to foster collaboration and knowledge exchange. The conference also offered participants a chance to immerse themselves in Chengdu's rich culture and heritage, ensuring a memorable and rewarding experience for all attendees. This book encapsulates the wealth of knowledge and insights shared during the conference, making it an invaluable resource for researchers, professionals and students in the field.

**Buildings and Structures under Extreme Loads** Chiara Bedon, Flavio Stochino, Daniel Honfi, 2020-11-25 Exceptional loads on buildings and structures may have different causes including high strain dynamic effects due to natural hazards, man-made attacks and accidents as well as extreme operational

conditions severe temperature variations humidity etc All of these aspects can be critical for specific structural typologies and or materials that are particularly sensitive to external conditions In this regard dedicated and refined methods are required for their design analysis and maintenance under the expected lifetime There are major challenges related to the structural typology and material properties with respect to the key features of the imposed design load Further issues can be derived from the need for risk mitigation or retrofit of existing structures as well as from the optimal and safe design of innovative materials systems Finally in some cases no appropriate design recommendations are available and thus experimental investigations can have a key role within the overall process In this Special Issue original research studies review papers and experimental and or numerical investigations are presented for the structural performance assessment of buildings and structures under various extreme conditions that are of interest for design

Journal of Engineering Mechanics ,2005      *Advances in Structural Mechanics and Applications* José António Fonseca de Oliveira Correia,Satyabrata Choudhury,Subhrajit Dutta,2022-07-14 The proceedings of the conference is going to benefit the researchers academicians students and professionals in getting enlightened on latest technologies on structural mechanics structure and infrastructure engineering Further work on practical applications of developed scientific methodologies to civil structural engineering will make the proceedings more interesting and useful to practicing engineers and structural designers
