Extinction Age Extinction Cycle Volume 3:

Ontohackers: Radical Movement Philosophy in the Age of Extinctions and Algorithms, Part I Jaime Del Val, 2024-05-15 Ontohackers redefines what movement worlds and bodies are through the sense of proprioception reconceptualized as formless fluctuation field a movement matrix that is itself also thought and which underlies all life forms and fields including the inorganic Our worlds are made of endless such entangled fields n folding in never ending variation or enference The current planetary crisis has emerged due to an accidental evolutionary alignment narrowing and impoverishment of that matrix s indeterminacy that appeared gradually and eventually with bipedalism and which created an imbalance between the larger proprioceptive field and its brain and made the atrophied body extend itself technically in geometric fields gradually covering the planet along with its fears with disastrous consequences that are unleashing an unprecedented type of mass extinction and species suicide The reply to this crisis which is urgently due if we are to reduce even slightly the collapse coming up over the next decades is in recovering a lost sensorimotor plasticity which is also cognitive affective and relational plasticity through developing movement techne for cultivating Body Intelligence BI reversing and taking elsewhere the failed evolution culminating in AI stepping down from humanist suprematist pedestals undoing our dependency from unsustainable killing machines of sedentary consumerism that impoverish experience stopping the reproduction of a species that has become plague by reversing heteronormative reproductive dogmas till we reach preagricultural population levels and recovering the joys of moving with the world in symbiotic mutation towards unprecedented evolutionary variations this is our cosmic responsibility for all life on Earth The book s structure expresses Enference Theory with regard to how processes of becoming have a triple movement an incipency unfolding the field Part I a condensation expansion where the field acquires full consistency Part II and a resonance or memory of the field relating to other fields Part III Part I includes Books 1 to 3 out of 7 The preface sets the context of the book the extinction crisis Book 1 provides an introduction to the entire field of the book and metareflects on the book s structure and process Book 2 is a full treatise on proprioception developing the theory of Body Intelligence and addressing core issues of cognition perception communication and an ontological redefinition of the body as proprioceptive swarm Book 3 develops all core concepts of Radical Movement Philosophy unfolding into several sections first introducing the fluctuation field and swarm theory secondly the core concepts of clinaos indeterminacy metabody consistency and intraduction variation coming together in the concept of enference Finally another triad further unfolds the previous as rhythm affect orientation desire and contact sex closing with an orgiastic cosmo ontology that opens the way to Part II
