Pain, Trauma and The Need to Visualize Stephanie Pabst, 2010-06-02 Swiss Diploma Thesis from the year 2008 in the subject Didactics for the subject English Literature Works grade 1 5 Schweizer Skala 5 5 University of Bern English Department language English abstract W G Sebald and Jonathan Safran Foer stem from a different background in cultural historical and local terms Whereas Austerlitz is the last work of Sebald which he finished shortly before his unexpected death Extremely Loud and Incredibly Close is only Foer s second novel finished at the age of 27 However both novels do not only both circle the subjects of trauma through war the loss of parents by the hand of the enemy and the impact of memory They also both use graphic representations as an autonomous layer in their narratives These graphic representations photographs maps drawings flip book collections etc are generally used in various ways to visualize meaning The main protagonists Austerlitz and Oskar serve as both the collectors and creators of these representations within the narratives As different as they are both Austerlitz and Oskar as well as Oskar s grandparents have suffered traumatic experiences by war and the loss of loved ones The pictures that have been integrated in the narratives execute various functions on different levels along the way of their stories On the intrafictional level they act as visualizations of pain and trauma proofs of existence and identity evidence of history media of documentation and verification surrogates of experience and means of expression On the extrafictional level they serve not only as a means to carry on with the narrative on a visual level but also as a reminder that pictures are always open to numerous interpretations and do not necessarily contribute to authentication realization and truth as they are often perceived to do in everyday life Rather they give way to fictionalization and to the construction of one s very own version of an explanation which can be either a way of coming to terms with received trauma or of impeded recovery The aim of this thesis is on one hand to closely examine and compare the functions of images in both narratives whether material or verbal although the emphasis will be on photographs and the way they interact with the written text On the other hand the thesis tries to educe the statements Sebald and Foer endeavor to make by pursuing intermedial strategies
