copy today **Language Learning Beyond the Classroom** David Nunan, Jack C. Richards, 2015-01-30 This volume presents case studies of language learning beyond the classroom. The studies draw on a wide range of contexts from North and South America to Europe and the Asia Pacific region. Each provides principled links between theory, research and practice. While out of class learning will not replace the classroom, ultimately all successful learners take control of their own learning. This book shows how teachers can help learners bridge the gap between formal instruction and autonomous language learning. Although English is the primary focus of most chapters, there are studies on a range of other languages including Spanish and Japanese. *Migration, Adult Language Learning and Multilingualism* Anna-Elisabeth Holm, 2023-11-23 This book extends lines of inquiry at the nexus of migration, adult language learning and multilingualism, illuminating the lived experiences of migrants in the Faroe Islands and critical new insights into sociolinguistics from the periphery. Building on recent epistemological shifts in research on minoritised languages, this volume integrates threads from scholarship on migration studies, new speakers and critical sociolinguistics in examining blue collar workplaces in the Faroe Islands. In bringing greater attention to these contexts, Holm showcases how these sites when analysed via an ethnographic lens reflect both the changing sociolinguistic landscape at the periphery in light of globalisation and adult language learners' commitment to language learning as a form of personal and social investment. In shedding light on the specific case of Faroese, the volume critically reflects on the specific challenges involved in acquiring a small language in a bilingual context and on those impacting the sustainability of minoritised languages, including the increasing use of English and the opportunities for stakeholders in language policy and planning to promote greater social inclusion for adult migrants. This volume will be of particular interest to students and scholars in critical sociolinguistics, linguistic anthropology, language education, migration studies and applied linguistics. *Spanish Simple Language Learning*, 2019-11-02 Are you a beginner to Spanish who wants to learn the language in a fast and simple way?
