women men and the state Suk examines major developments in contemporary U S law pertaining to domestic violence self defense privacy sexual autonomy and property in order to illuminate the changing relation between home and the law Increasing state control has led to expanded definitions of what constitutes violence mandatory arrest of those suspected of domestic violence and obligatory criminal charges in place of prosecutorial discretion Protection orders that prohibit all contact between suspected abusers and their partners are designed to end relationships even over victims objections The law s rapidly changing picture of the home has fundamentally moved the boundary between public and private space The result unintended by domestic violence reformers is to reduce the autonomy of women in relation to the state Book Jacket
