Persuasive Technology Nilufar Baghaei, Raian Ali, Khin Win, Kiemute Oyibo, 2024-04-09 This book constitutes the refereed post conference proceedings the 19th International Conference on Persuasive Technology **PERSUASIVE 2024** held in Wollongong NSW Australia during April 10 12 2024 The 14 revised full papers and 8 short papers presented in this book were carefully reviewed and selected from 51 submissions based on their content methods for tailoring and personalization persuasive design and applications persuasive strategies and persuasive technologies and ethics **Manual of Discourse Traditions in Romance** Esme Winter-Froemel, Álvaro S. Octavio de Toledo y Huerta, 2022-11-07 Discourse Traditions are a key concept of diachronic Romance linguistics The present manual aims to establish this approach at an international level by assembling contributions that introduce its theoretical foundations discuss connections with alternative approaches of text and discourse analysis show the relevance of Discourse Traditions for the history of Romance languages and explore possibilities for future applications of the concept Death, Society, and Human Experience Robert Kastenbaum, Christopher M. Moreman, 2024-03-28 The 13th edition of *Death Society and Human Experience* provides a panoramic overview of the ways that we are touched by death and dying both as individuals and as members of society A landmark text in the field the authors draw on contributions from the social and behavioral sciences as well as the humanities including perspectives offered through history philosophy religion literature and the arts to provide thorough coverage and understanding of topics associated with the end of life and death and dying By approaching the subject from multiple angles the authors explain the various ways that individual cultural and societal attitudes influence both how and when we die and how we live and deal with the knowledge of death and loss Originally written by Robert Kastenbaum a renowned scholar who developed one of the world's first death education courses Christopher M Moreman who has worked in the field of death studies for two decades has updated this edition In addition to infusing his close areas of focus both in afterlife beliefs and experiences and how these might affect how people live their lives he's weaved in new coverage of current affairs including The impact of COVID 19 on experiences of death bereavement mourning and more Expanded legalization of physician assisted dying in the United States and several countries Changes in bereavement rituals and traditions stemming from technology use and social media With additional content and classroom extensions available online *Death Society and Human Experience* remains a thoughtful exploratory and impressively comprehensive overview for undergraduate and graduate courses in death dying and bereavement Visualizing Film History Christian Gosvig Olesen, 2024 Though many archival digital objects were not born digital film archives are now becoming important resources for digital scholarship as a consequence of digitization Moreover with advancements in digital research methods involving video annotation visual analysis and GIS affecting the way we look at archival films material stylistic histories and circulation new research practices are more important than ever *Visualizing Film History* is an accessible introduction to archive based digital scholarship in

film and media studies and beyond With a combined focus on the history of film historiography archiving and recent digital scholarship covering a period from the first wave of film archiving in the early 1900s to recent data art this book proposes ways to work critically with digitized archives and research methods Christian Olesen encourages a shift towards new critical practices in the field with an in depth assessment of and critical approach to doing film historiography with the latest digital tools and digitized archives Olesen argues that if students scholars and archivists are to fully realize the potential of emerging digital tools and methodologies they must critically consider the roles that data analysis visualization interfaces and procedural human machinery interactions play in producing knowledge in current film historical research If we fail to do so we risk losing our ability to critically navigate and renew contemporary research practices and evaluate the results of digital scholarship
