Dont Think Smile Notes On A Decade Of Denial:

Don't Think, Smile! Ellen Willis, 2000-11-16 If the 1970s were the Me Decade and the 80s were the years of the Reagan counterrevolution then the 90s writes Ellen Willis were the Decade of Denial In keeping with the mass media's glib assumption that a phenomenal increase in wealth for a minority meant genuine national prosperity the 1990s saw an astounding refusal on both the left and right to question received wisdom or engage in substantive deliberation Turning her acute eye to the decade's defining moments imbroglios like those surrounding the O J Simpson trial The Bell Curve Monica gate and the Million Man March Ellen Willis reveals the mindlessness behind the noise Arguing that we suffer from a lack of true freedom she demands that we radically rethink our country and ourselves to create a society in which we can fully enjoy life

The Abandoned Generation Henry A. Giroux, 2003-04-19 Henry Giroux continues his critique of the US political and popular culture's influence on the lives of our children In his controversial new book Giroux argues that the US is at war with young people No longer seen as the future of a democratic society youth are now derided by politicians looking for quick fix solutions to crime and demonized by the popular media This perception of fear and disdain is being translated into social policy Instead of providing a decent education to young people we offer them the increasing potential of being incarcerated Instead of guaranteeing them decent health care we serve them more standardized tests There's a war on in the US these days and Giroux sees our youth as the target

The Essential Ellen Willis Ellen Willis, 2014-04-23 Out of the Vinyl Deeps published in 2011 introduced a new generation to the incisive witty and merciless voice of Ellen Willis through her pioneering rock music criticism In the years that followed Willis's daring insights went beyond popular music taking on such issues as pornography religion feminism war and drugs The Essential Ellen Willis gathers writings that span forty years and are both deeply engaged with the times in which they were first published and yet remain fresh and relevant amid today's seemingly intractable political and cultural battles Whether addressing the women's movement sex and abortion race and class or war and terrorism Willis brought to each a distinctive attitude passionate yet ironic clear sighted yet hopeful Offering a compelling and cohesive narrative of Willis's liberationist transcendence politics the essays among them previously unpublished and uncollected pieces are organized by decade from the 1960s to the 2000s with each section introduced by young writers who share Willis's intellectual bravery curiosity and lucidity Irin Carmon Spencer Ackerman Cord Jefferson Ann Friedman and Sara Marcus The Essential Ellen Willis concludes with excerpts from Willis's unfinished book about politics and the cultural unconscious introduced by her longtime partner Stanley Aronowitz An invaluable reckoning of American society since the 1960s this volume is a testament to an iconoclastic and fiercely original voice

Public Spaces, Private Lives Henry A. Giroux, 2001 Offers progressive readers new and reinvigorated paths of engaged hope imagination and public involvement *Strange Love* Robin Truth Goodman, Kenneth J. Saltman, 2001-12-18 As Junk Bond felon Michael Milken attempts to transform public education on the model of the HMO he is hailed in the mainstream

press as having done more to help mankind than Mother Theresa Even as BP Amoco a notorious U S polluter is charged with funding and arming paramilitaries in Colombia it freely distributes science curricula that portrays itself as a loving protector of citizens from a dangerous and out of control nature These as well as many other examples abound as Professors Robin Truth Goodman and Kenneth J Saltman take on the corporate educators media monopolies and oil companies in their new book *Strange Love How We Learn to Stop Worrying and Love the Market* Saltman and Goodman show how corporate produced curricula films and corporate promoted books often use depictions of family love childhood innocence and compassion in order to sell the public on policies that ironically put the profit of multinational corporations over the well being of people In doing so Goodman and Saltman reveal the extent to which globalization depends upon education and also show how battles over culture language and the control of information are matters of life death and democracy

Feminists Who Changed America, 1963-1975 Barbara J. Love, 2006-09-22 Documents the key feminists who ignited the second wave women s movement This work tells the stories of more than two thousand individual women and a few notable men who together reignited the women s movement and made permanent changes to entrenched customs and laws

The World, 1999 *Composing a Civic Life* Michael Berndt, Amy Muse, 2004 Promoting the examined life as an ideal that brings inquiry and action together this text addresses the critical thinking reading and writing skills It promotes active citizenship by encouraging students to write as a means of inquiry and civic participation It shows students how to work toward negotiation and positive social action

The Nation, 1906 The McGraw-Hill Reader Gilbert H. Muller, 2006 The Poverty of Life-Affirming Work Mechthild Hart, 2002 While society may applaud middle and upper class women who decide to stay home to raise their children there exists a decided abhorrence for single mothers welfare queens who collect public funds but do not work Here Hart challenges traditional notions of welfare mothers by providing first hand accounts of poor urban mothers and revealing the life affirming and moral aspects of their motherwork a form of subsistence work involving many tasks that incorporate the physical psychological emotional and spiritual dimensions of life Though the mothering work these women do is vilified in public discourse as unnecessary and unwanted the author contends that the ethical and epistemological dimensions of life affirming work a key component of motherwork not only structure social political activism but also educational efforts that are oriented towards radical change Concrete experiences of motherwork policy analyses regarding welfare reform efforts oriented towards educational and epistemological border crossings and collective struggles for social change are examined here in a larger theoretical political economic framework Pulling together the many strands of different theoretical fields addressing issues related to critical transformative pedagogy community activism and forms of unpaid work this unique work calls for the unlearning of ways of thinking and feeling which uphold prejudices and life threatening social political hierarchies While the public may sneer at women who choose to accept welfare in order to stay home to raise their children these mothers must continue to perform this invisible work in order that their children may break the cycle of

poverty in which they are entrenched The author examines ways in which these mothers organize and carry out educational efforts and political work in the context of extreme poverty and against the harsh criticisms of an unforgiving public Ultimately Hart hopes to convince the public of the inherent importance of motherwork and break down the prejudices that have worked against the urban poor and single mothers [Feminist Bookstore News](#) ,1999 **Dissent** ,2000 [The Publishers Weekly](#) ,1999 [Indochina Chronology](#) ,2001 **Feminist Periodicals** ,1999 **Social Text** ,2002

Forthcoming Books Rose Arny,1999-08 **Z Magazine** ,2006 *Beyond the Corporate University* Henry A. Giroux,Kostas Myrsiades,2001-06-20 Prominent scholars in this book move boldly beyond critique to show how and why the critical functions of a democratically informed civic education not merely professional training must become the core of the university s mission They show why higher education must address what it means to relate knowledge to public life and social responsibility to the demands of critical citizenship Moreover they show why democratic forms of education and various elements of a critical pedagogy are vital not only to individual students but also to our economy and our democratic institutions and future leadership Visit our website for sample chapters
