**Imprint and Trace** Sonja Neef, 2012-01-01

Today writing by hand seems a nearly archaic process Nearly all of our written communication is digital our letters are via email or text message our manuscripts are composed using word processors our journals are blogs and we sign checks to pay bills with the push of a button Sonja Neef believes that what we have lost in our modern technological conversation is the ductus the physical and material act of handwriting In Imprint and Trace Neef argues however that handwriting throughout its history has always been threatened with erasure It exists in a dual state able to be standardized repeated copied much like an imprint and yet persistently singular original and authentic as a trace or line Throughout its history from the first prehistoric handprint through the innovations of stylus quill and printing press handwriting has revealed an interweaving ever changing relationship between imprint and trace Even today in the age of the digital revolution the trace of handwriting is still an integral part of communication whether etched photographed pixelated or scanned Imprint and Trace presents an essential re-evaluation of the relationships between handwriting and technology and between the various imprints and traces that define communication

**To the Letter** Simon Garfield, 2013-11-14 The New York Times bestselling author of Just My Type and On the Map offers an ode to letter writing and its possible salvation in the digital age Few things are as exciting and potentially life changing as discovering an old letter And while etiquette books still extol the practice letter writing seems to be disappearing amid a flurry of e-mails texting and tweeting The recent decline in letter writing marks a cultural shift so vast that in the future historians may divide time not between BC and AD but between the eras when people wrote letters and when they did not So New York Times bestselling author Simon Garfield asks Can anything be done to revive a practice that has dictated and tracked the progress of civilization for more than five hundred years In To the Letter Garfield traces the fascinating history of letter writing from the love letter and the business letter to the chain letter and the letter of recommendation He provides a tender critique of early letter writing manuals and analyzes celebrated correspondence from Erasmus to Princess Diana He also considers the role that letters have played as a literary device from Shakespeare to the epistolary novel all the rage in the eighteenth century and alive and well today with bestsellers like The Guernsey Literary

and Potato Peel Pie Society At a time when the decline of letter writing appears to be irreversible Garfield is the perfect candidate to inspire bibliophiles to put pen to paper and create a form of expression emotion and tactile delight we may clasp to our heart      Wrong Way Round Lorna Hendry,2015-04-01 Mate I reckon you re going about this all wrong For the first month you re only going to be a day s drive from Melbourne If it was me I d get her across the Nullarbor quick smart so she can t nick off home When Lorna Hendry her husband James and young kids left Melbourne on a one year trip around Australia in a 4WD with a camper trailer having only been camping once before they left they ignored all advice and drove across the Nullarbor and up the west coast of Australia They may have been travelling the wrong way around Australia but it was the best decision they ever made Lorna returned to Melbourne three years later having crossed deserts and rivers taken ill advised short cuts in the most remote areas of the country stood on the western edge and the northern tip of the country stumbled onto its geographic centre and lived in remote communities in Western Australia Wrong Way Round is a story about four people who had to get out of the city to become a family It s about this beautiful and harsh country And it s about the adventures that you can have if you step outside of your door and turn left instead of right      *Tracing Dotted Lines And Cursive Handwriting Letters* Tracing Book Cursive Writing,2020-06-14 This Tracing Dotted Lines And Cursive Handwriting letters helps and encourage kids to learn and write letters with ease Handwriting alphabet Tracing letters Circling letters The Book comes with Large size 8 5 x 11 Wonderful cover design 80 Pages of practice      **My Dear Bessie** Chris Barker,Bessie Moore,2015-02-05 AS HEARD ON RADIO 4 Utterly wonderful NINA STIBBE author of Love Nina Twenty hours have gone since I last wrote I have been thinking of you I shall think of you until I post this and until you get it Can you feel as you read these words that I am thinking of you now aglow alive alert at the thought that you are in the same world and by some strange chance loving me In September 1943 Chris Barker was serving as a signaller in North Africa when he decided to brighten the long days of war by writing to old friends One of these was Bessie Moore a former work colleague The unexpected warmth of Bessie s reply changed their lives forever Crossing continents and years their funny affectionate and intensely personal letters are a remarkable portrait of a love played out against the backdrop of the Second World War Above all their story is a stirring example of the power of letters to transform ordinary lives      Cursive Handwriting Workbook Podchilla Press,2019-03-18 Looking for the best way to learn cursive writing This training workbook is perfect for both children teens and adults who are seeking to enhance their cursive handwriting skills The added coloring pictures makes it fun to learn and stimulates creativity as well as connection to the words that are being practiced These true D Nealian fonts make it easy to learn and trace the dotted letters Sample words are provided and plenty of blank writing practice sheets give room to practice words for homeshcoolers grade school and elementary grades as well While the pages are tight fitting and durable they can also be removed for easier practice Easy sight words make learning cursive fun and without tears Since more and more schools are no longer teaching cursive give your child an advantage by training them at home Expand their
