Down And Out On The Road The Homeless In American History:

Down & Out, on the Road Kenneth L. Kusmer, 2002 A definitive history of homelessness in the United States page 4 of cover *Down and Out, on the Road* Kenneth L. Kusmer, 2023 From the colonial era to the late 20th century this book charts the history of the homeless in America Kusmer shows that the homeless have been a presence on the American scene for over 200 years Address Unknown James D. Wright, 2009 Homelessness in America has grown from a minor problem in isolated areas of a few big cities into a near epidemic Today scarcely any American city of any appreciable size lacks homeless people Homeless shelters and programs have become as essential and as commonplace as police protection or water and sewage treatment What to do for with or about the homeless is a nagging and complex social policy issue debated at all levels of government Address Unknown emphasizes the large scale social and economic forces that have priced an increasingly large segment of the urban poor completely out of the housing market Seen in this light the problem of homelessness is that there are too many extremely poor people competing for too few affordable housing units The nation would be facing a formidable homelessness problem even if there were no alcoholics no drug addicts no deinstitutionalized mentally ill people no personal pathologies of any kind Rather than a choice homelessness is the result of housing markets that have very little to offer to extremely poor people The plight of the homeless is very visible and Address Unknown is one of the first major investigative studies into the nature and multiple causes of the problem Wright considers demographic economic sociological and social policy antecedents of homelessness A hallmark is the delineation of the range of factors involved including deinstitutionalization of the mentally ill urban renewal the decrease in lower skilled jobs changing political priorities and bureaucratic obstacles to providing existing social services to the homeless population James D Wright is a professor in the department of sociology at the University of Central Florida He has published seventeen books including *Armed and Considered Dangerous* and *Under the Gun* as well as many journal articles His current research interests include violence urban poverty and inequality health and the homeless population and the divorce reform movement *The Value of Homelessness* Craig Willse, 2015-09-15 It is all too easy to assume that social service programs respond to homelessness seeking to prevent and understand it *The Value of Homelessness* however argues that homelessness today is an effect of social services and sciences which shape not only what counts as such but what will or ultimately won't be done about it Through a history of U S housing insecurity from the 1930s to the present Craig Willse traces the emergence and consolidation of a homeless services industry How to most efficiently allocate resources to control ongoing insecurity has become the goal he shows rather than how to eradicate the social economic and political bases of housing needs Drawing on his own years of work in homeless advocacy and activist settings as well as interviews conducted with program managers counselors and staff at homeless services organizations in New York Los Angeles San Francisco and Seattle Willse provides the first analysis of how housing insecurity becomes organized as a governable social problem An unprecedented and

powerful historical account of the development of contemporary ideas about homelessness and how to manage homelessness The Value of Homelessness offers new ways for students and scholars of social work urban inequality racial capitalism and political theory to comprehend the central role of homelessness in governance and economy today **Who is My Neighbor?** Phillip K. Tompkins, 2015-11-17 Who Is My Neighbor is a compelling account of the author's ten year journey as a volunteer at the St Francis Center a homeless shelter in Denver Colorado A retired Professor of Communication Phil Tompkins marshals his considerable experience as a participant observer in recording the voices of the guests of the shelter as they teach us about their situation We learn about their hopes for regaining a home and their fears as they are victimized in some cases even murdered Tompkins shows how effective communication and organization can contribute to finding an end to homelessness and establishing a movement toward protective action especially when a proactive local government gets involved In addition to giving voice to homeless people Who Is My Neighbor explores Denver Mayor John Hickenlooper's ambitious Commission to End Homelessness This remarkable social experiment now called Denver's Road Home is two years into implementing an innovative plan for ending homelessness It provides a model for other cities nationwide where persistent homelessness has defied resolution The Freeman, and Other Poems Ellen Glasgow, 1902 America, History and Life ,2007 Article abstracts and citations of reviews and dissertations covering the United States and Canada
