

ECONOMICS GRADE 10 NOTES

FROM CHAPTER 9

husbandry and agriculture

9.1.1 Characteristics of the agricultural stage of economic development

- The San and Khoikhoi groups used basic hunting weapons, such as bows and arrows.
- The Nguni and the Sotho groups used implements to till the soil and weapons for hunting and war. They were also herders of cattle, sheep and goats.
- People produced agricultural goods for themselves, seldom to trade.
- There was a little trade, mostly in the form of bartering.
- There were no well-developed markets.
- Most of the economic activity in South Africa was agriculture and hunting.
- There was a small population on large pieces of land.
- Labour was scarce; slaves were imported as extra labour.
- Capital was scarce.
- Most farmers produced almost everything they needed themselves.

9.1.2 Factors promoting economic development in agriculture

- The Dutch could barter with the Khoi and the San for land.
- Plentiful game made hunting easy.
- A small market developed for selling food products to the passing ships.
- The colonial powers protected the markets. For example, Britain taxed imports of French wines to promote sales of wines from the Cape to people in Britain.
- In the Cape, local taxes on imports promoted local production of food. For example, a tax on wheat imports in the 1820s encouraged farmers to grow wheat.
- Improved transport and infrastructure

9.1.3 Factors hampering economic development in agriculture

- Lack of capital.
- Labour was scarce.
- There were few or no schools and other educational institutions; most people had little or no education.
- Most areas had little or no infrastructure.
- The colonial powers often had monopolies in the markets. For example, farmers could only sell their goods to the Dutch East India Company.

The Debt Trap Josh Mitchell, 2021-08-03 AN NPR AND NEW YORK POST BEST BOOK OF THE YEAR From acclaimed Wall Street Journal reporter Josh Mitchell the devastating account The Wall Street Journal of student debt in America In 1981 a new executive at Sallie Mae took home the company's financial documents to review You've got to be shitting me he later told the company's CEO This place is a gold mine Over the next four decades the student loan industry that Sallie Mae and Congress created blew up into a crisis that would submerge a generation of Americans into 1.5 trillion in student debt In The Debt Trap Wall Street Journal reporter Josh Mitchell tells the vivid and compelling Chicago Tribune untold story of the scandals scams predatory actors and government malpractice that have created the behemoth that one of its original architects called a monster As he charts the jaw dropping Jeffrey Selingo New York Times bestselling author of Who Gets in and Why seventy year history of student debt in America Mitchell never loses sight of the countless student victims ensnared by an exploitative system that depends on their debt Mitchell also draws alarming parallels to the housing crisis in the late 2000s showing the catastrophic consequences student debt has had on families and the nation's future Mitchell's character driven narrative is necessary reading The New York Times for anyone wanting to understand the central economic issue of our day

The

Decline of America David D. Schein, 2018-02-13 The Decline of America offers a carefully documented analysis of the last seventeen U S presidents These men eight Democrats and nine Republicans have shaped the last 100 years not only for America but for the world Each president is profiled with unsparing scrutiny so we can see where it s all gone wrong David Schein follows these critiques by proposing ways to improve America s outlook for the next 100 years before it s too late

Mapping Power Navroz K. Dubash, 2018-08-22 Electricity is critical to enabling India s economic growth and providing a better future for its citizens In spite of several decades of reform the Indian electricity sector is unable to provide high quality and affordable electricity for all and grapples with the challenge of poor financial and operational performance To understand why Mapping Power provides the most comprehensive analysis of the political economy of electricity in India s states With chapters on fifteen states by scholars of state politics and electricity this volume maps the political and economic forces that constrain and shape decisions in electricity distribution Contrary to conventional wisdom it concludes that attempts to depoliticize the sector are misplaced and could worsen outcomes Instead it suggests that a historically grounded political economy analysis helps understand the past and devise reforms to simultaneously improve sectoral outcomes and generate political rewards These arguments have implications for the challenges facing India s electricity future including providing electricity to all implementing government reform schemes and successfully managing the rise of renewable energy

Capital and the Common Good Georgia Levenson Keohane, 2016-09-27 Despite social and economic advances around the world poverty and disease persist exacerbated by the mounting challenges of climate change natural disasters political conflict mass migration and economic inequality While governments commit to addressing these challenges traditional public and philanthropic dollars are not enough Here innovative finance has shown a way forward by borrowing techniques from the world of finance we can raise capital for social investments today Innovative finance has provided polio vaccines to children in the DRC crop insurance to farmers in India pay as you go solar electricity to Kenyans and affordable housing and transportation to New Yorkers It has helped governmental commercial and philanthropic resources meet the needs of the poor and underserved and build a more sustainable and inclusive prosperity Capital and the Common Good shows how market failure in one context can be solved with market solutions from another an expert in securitization bundles future development aid into bonds to pay for vaccines today an entrepreneur turns a mobile phone into an array of financial services for the unbanked and policy makers adapt pay for success models from the world of infrastructure to human services like early childhood education maternal health and job training Revisiting the successes and missteps of these efforts Georgia Levenson Keohane argues that innovative finance is as much about incentives and sound decision making as it is about money When it works innovative finance gives us the tools motivation and security to invest in our shared future

Teach Janice Koch, 2018-12-04 Teach is a concise introduction to education that challenges readers preconceived notions of teaching in order to transform them into reflective practitioners Empathizing with the difficulties

students face as they move from the college classroom to their own classrooms revered author Janice Koch invites readers to both reflect on their own dispositions for teaching and look outside of themselves to the demands of the profession making the philosophy of teaching and learning accessible and relevant The Fourth Edition emphasizes the changing student population and the role of technology and globalization in the field while also including the Interstate Teacher Assessment and Support Consortium InTASC standards correlating with each chapter s content With the guidance of this supportive text readers will gain vital exposure by engaging with professional standards from the very start of their career
