Institutional Economics and Economic Organisation

Theory L. H. G. Slangen, Laura A. Loucks, Arjen H. L. Slangen, 2008. This publication presents one of the first attempts to integrate two emerging bodies of economic research: institutional economics and organizational theory. It begins within the framework of neoclassical economics and then extends the boundaries of this framework to offer answers to questions that have so far remained puzzles in neoclassical economics. The integrated approach of this publication also challenges the dominant paradigm in economics over the last 15 years that views the market as the best mechanism for carrying out transactions. The market is not the only transaction mechanism; other modes of organization are also important. However, this way of thinking does not involve a simple reintroduction of the confrontation between the government and the market. On the contrary, the integrated approach tries to open the blackbox of the role of institutions in daily life and the diversity of modes of organization. Through this integrated approach, the book hopes to contribute to a better insight into real-world problems. Dr. Louis H. G. Slangen is Associate Professor of Agricultural Economics and Rural Policy at Wageningen University. His teaching, research, and supervising MSc and PhD theses are in the field of resource economics, economics of land use, new institutional economics, and economic organization theory. His publication record consists of about 30 articles in refereed journals, 15 chapters in books, and 10 books. He has a long and extensive experience in various types of research projects for various Dutch Ministries and the European Union. Dr. Laura A. Loucks is Senior Researcher and Lecturer in Institutional Economics and Organization Theory at Wageningen University. Her research focuses on new and emerging institutions for sustainable fisheries management. She has been a consultant to the Canadian Department of Fisheries and Oceans as well as the Dutch Ministry of Agriculture, Nature, and Food Quality. Her research on fisheries co-management agreements has been published in several books and in *Marine Policy*, one of the leading journals on marine management issues. Dr. Arjen H. L. Slangen has been Assistant Professor of International Business at the Erasmus University Rotterdam and is currently Assistant Professor of International Strategy at the University of Amsterdam. His research examines how national institutional environments influence the foreign entry strategies and performance of multinational enterprises. He has published in leading international business and management journals such as the *Journal of International Business Studies* and the *Journal of Management*.

Studies *Vantage Point*, 2008 **The Freeman**, 2009 Loose-leaf Version for Economics in Modules Paul Krugman, Robin Wells, Margaret Ray, David A. Anderson, 2014-05-16 Adapted by Paul Krugman and Robin Wells from their bestselling principles of economics textbook Economics in Modules is the only text for the principles course organized in the supremely accessible highly effective modular format Instead of chapters of standard length the book covers the fundamentals of economics in 84 brief 4-10 page modules divided into 26 sections Economics in Modules offers the best of what makes Krugman Wells a classroom favorite story telling approach engaging writing fascinating examples and cases in a format students and instructors will love Extensive educational research shows that students absorb more from shorter reading assignments than longer ones And with coverage in self contained modules instructors can assign specific topics without asking students to read entire chapters
