Economics Politics Inflation Routledge Revivals:

Political Economy and Soviet Socialism (Routledge Revivals) Alec Nove, 2013-02-01 First published in 1979 Political Economy and Soviet Socialism is an integrated selection of papers written over the past 12 years of Russian history which offers a unique insight into some important and controversial issues Professor Nove discusses the ideas of some of the leaders of the Russian revolution Lenin Trotsky and Bukharin the political economy of socialism and the problems of the contemporary USSR The author addresses the role of traditional Russian ideas in shaping the Soviet Union's social structure and the conceptual problems involved in defining its ruling stratum whether or not it is a class He also considers the criteria by which it is reasonable to judge Soviet reality the performance and prospects of agriculture in communist ruled Europe the ability of the Eastern bloc to tackle problems of inflation and the obstacles to economic reform Looking at the important and original developments of economic thought in the USSR and Eastern Europe Professor Nove dissects the ideas of the new leftists concerning the role of market forces under a feasible socialism These papers offer essential reading for students of politics economics and comparative social structure

East-West Relations and the Future of Eastern Europe Morris Bornstein, Zvi Gitelman, William Zimmerman, 2024-11-18 Both domestic and foreign policy considerations led Eastern European nations in the 1970s to involve their economies more deeply with the West This increased economic interdependence encompassed trade technology transfer through industrial cooperation and international credit These growing links came as a mixed blessing as Western economic problems inflation recession unemployment energy began to affect the economic development and political stability in Eastern Europe First published in 1981 East West Relations and the Future of Eastern Europe examines the implications of these problems for East West relations and the domestic scene in Eastern Europe The authors analyze the interaction of economic and political forces at three interlocking levels international regional and national The first part deals with the evolution of East West political and economic relations in the 1970s and the prospects for the 1980s and considers the implications of developments in East West relations for Soviet and East European regional economic political and military ties Thereafter experts from East and West offer their perspectives on political economic strategies for individual East European countries in the context of their regional and international relations This book will be of interest to students of comparative economics international trade and international relations

Understanding Political Economy Bob Hancké, Toon Van Overbeke, Dustin Voss, 2025-01-09 This timely book provides a critical discussion of the leading concepts and theories in political economy Bob Hanck Toon Van Overbeke and Dustin Voss conduct a historical and thematic review of the evolution of political economic thought revolving around the relation between capitalism and democracy

Modern Theories of Money Louis-Philippe Rochon, Sergio Rossi, 2003-01-01 This is a timely book Being on modern theories of money essentially the study of traditions of endogenous money it is a welcome contribution to current thinking on monetary policy The modern central bank view on money is that the rate of interest should be

manipulated by central banks to achieve an inflation target with the money supply being the residual Although money is in effect endogenous there is no theory that explains its behaviour Modern Theories of Money is a serious attempt to sharpen existing views on the issue and fill gaps in an admirable manner Philip Arestis University of Cambridge UK and Levy Economics Institute US This book unites diverse heterodox traditions in the study of endogenous money which until now have been confined to their own academic quarters and explores their similarities and differences from both sides of the Atlantic Bringing together perspectives from post Keynesians Circuitists and the Dijon School the book continues the tradition of Keynes's and Kalecki's analysis of a monetary production economy emphasising the similarities between the various approaches and expanding the analytical breadth of the theory of endogenous money The authors open new avenues for monetary research in order to fuel a renewed interest in the nature and role of money in capitalist economies which is the authors argue one of the most controversial and therefore fascinating areas of economics **José Ingenieros** Maximiliano

E. Korstanje, 2024-03-19 Maximiliano Korstanje presents an overview and analysis of the work of the Argentinian sociologist and physician Jos Ingenieros 1877-1925 In fact Jos Ingenieros was a seminal scholar who contributed directly to the formation of sociology in Latin America Born in Palermo Italy Ingenieros grew up in Buenos Aires Argentina He trained in medicine psychiatry sociology and philosophy he devoted much of his life to addressing societal challenges such as mass migration imperialism marginality criminality and social identity Korstanje takes in turn the key areas of Ingenieros's work and examines how his thinking can be brought to bear on the social challenges of today In particular his work on mass migration and the Other have echoes in the problems facing many countries in the early twenty-first century It is a valuable resource for scholars and students looking to better understand this key figure in Argentinian and Latin American sociology in the early twentieth century **Fiscal and Monetary Policies in Developing Countries** Rashed Al Mahmud

Titumir, 2021-12-23 The COVID-19 crisis has fractured the pre-existing structural rigidities and institutional fragilities in the economies of developing countries more than ever necessitating a rethinking of fiscal and monetary policies the main vehicles for relief recovery and reconstruction This book examines the barriers to transformation in developing countries in the wake of the pandemic and analyses the paths to recovery based on an economic policymaking agenda It juxtaposes fiscal and monetary policies and state building from pre and post colonial periods to the present-day context It employs an interdisciplinary approach and ventures beyond the well-rehearsed tendency to explain the state of developing countries by considering the experiences of advanced economies The book utilises data on three levels the aggregate level using world data the single country context with case studies and a cross-country assessment for comparative analysis Further the book critically assesses the relevance of different schools of thought and provides nuanced thought provoking theoretical apparatuses applicable to developing countries as well as allowing the reader to undertake a country-specific analysis through the detailed historical country case studies undertaken in each chapter Each chapter has a detailed and separate

theoretical and empirical section for the ease of understanding of the key propositions in the book The book will find an audience among scholars and researchers alike who wish to gain a deeper understanding of the formulation of fiscal and monetary policies specifically in developing countries For policymakers and policy advocates the book will serve as the groundwork for monetary and fiscal policies in the context of developing countries providing more relevant instruments for transformational pathways

The Economic and Labour Relations Review, 1999

The Rise and Fall of the Italian Economy Carlo Bastasin, Gianni Toniolo, 2023-09-07 Carlo Bastasin and Gianni Toniolo provide a much needed up to date economic history of Italy from unification in 1861 to the present day They show how thirty years after unification Italy began a long phase of convergence with more advanced economies so that by the late twentieth century Italy's per capita income reached the levels of Germany France and the UK From the mid 1990s however the Italian economy declined first in relative and then absolute terms The authors describe the intertwined financial and institutional crises that eroded trust in the political system and in the economy at the exact juncture when new technologies and markets transformed the global economy Longstanding problems of uneven levels of education and obsolete bureaucratic and judicial practices deepened the division between economically vibrant regions and the rest causing polarization political instability and rising public debt Italy's contemporary malaise makes the country a test case for understanding the implications of protracted declines in productivity and the flattening of GDP growth for the stability of western democracies resulting in populism mistrust and political instability

Central Banking in the Modern World Marc Lavoie, Mario Seccareccia, 2004 Monetarism is dead Central bankers are all Wicksellians now They target low inflation rates with no regard to monetary aggregates whatsoever by acting upon short term real rates of interest This is the New Consensus in monetary economics or simply the New Keynesian Synthesis Yet this synthesis still hinges on variants of the long run vertical Phillips curve originally proposed by Milton Friedman the father of old line monetarism Contributors to the volume question this New Consensus While they agree that the money supply should be conceived as endogenous they carefully examine the procedures pursued by central banks the monetary policy transmission mechanisms suggested by central bankers themselves and the assumptions imbedded in the New Consensus They propose alternative analyses that clearly demonstrate the limits of modern central banking and point to the possible instability of monetary economies Heterodox and orthodox monetary macroeconomists alike will find this illuminating book of great interest

Subject Guide to Books in Print, 1997

Capital, Inflation and the Multinationals (Routledge Revivals) Charles Levinson, 2013-10-08 Inflation is the economic plague of the modern world completely undermining conventional theory and policies for its containment and setting governments management and labour on a dangerous collision course Its alarming spread is only paralleled by the expansion of multinational corporations some of them more economically powerful than nation states This book first published in 1971 provided a totally new perspective on these phenomena linking them in a common theory based on a thorough analysis of the modern role of capital

financing in the global economy It demonstrates the impact of technology on self financing growth and explains why inflation can never be stemmed by attacks on wage costs when the source lies in the need of managements to maximise cash flows Alternative economic policies are discussed including proposals for creating assets for workers in the self financing investment Charles Levinson draws together the strands of his subject in a way which is comprehensive and rigorous yet easily accessible to the more general reader The conclusions reached in Capital Inflation and the Multinationals are still of great interest and relevance to professional economists and students political practitioners and commentators

Macroeconomic Theory Gary Mongiovi, Christof Rühl, 1993 This unique book focuses on the central issues in macroeconomics examining some of the lively theoretical controversies troubling contemporary economists in order to establish a genuine basis for communication between the alternative theoretical traditions The past two decades have witnessed the emergence of several competing approaches to macroeconomic analysis post Keynesian economics Kaleckian analysis neo Ricardian theory the neo Austrian school the Rational Expectations School etc This book presents new work by 14 respected economists from nine different countries who address a series of unresolved yet well defined issues in monetary theory and policy market structure and accumulation and problems of effective demand and the theory of distribution The main purpose of *Macroeconomic Theory* is to identify areas of common ground among the various theoretical approaches The excitement of that dialogue and the intellectual vitality generated are captured for the reader in a volume that will be essential for an understanding of modern macroeconomic theory

The International Politics of Surplus Capacity

(Routledge Revivals) Susan Strange, Roger Tooze, 2009-11-02 This important survey first published in 1981 presents some different and often contending perceptions of the problem of surplus capacity as it re emerged in the world of the 1980s an economic climate with many parallels to the current era Susan Strange and Roger Tooze deliberately assembled writers of many different nationalities professional backgrounds and ideological convictions and asked them to make the case for their version of the problem Some even doubt if there really is much of a problem at all Others see it as fundamentally political or monetary as inherent in the capitalist system or as the product of short sighted pressure groups and perverse politicians To help readers judge for themselves there are specialist contributions on surplus capacity as it has shown up in different sectors of the world economy shipbuilding textiles steel petrochemicals insurance and banking and on the responses of different actors in the international system including the European Community and multinational corporations

PSE Economic Analyst, 1981 European Economists of the Early 20th Century: Studies of neglected continental thinkers of Germany and Italy Warren J. Samuels, 1998 This text presents 17 specially commissioned essays on the often forgotten figures in the European history of economic thought The authors examine the economists original ideas and discuss how their work contributed to the development of economic thought

Problems of Economic Policy (Routledge Revivals), *The Political Economy of South Africa's Transition* Jonathan Michie, Vishnu Padayachee, 1997 This edition analyzes and discusses

economic policies over a range of macroeconomic and industrial areas which are required to see through the reconstruction and development of the South African economy It explores the recent history and politics of the processes of economic policy formulation **Forthcoming Books** Rose Arny,2003 **Economic and Political Weekly** ,1999-04 **Journal of Economic Issues** ,1977
