Education And The Environment Creating Standards Based Programs In Schools And Districts:

Education and the Environment Gerald A. Lieberman, 2013-12-01 In this timely book curriculum expert Gerald A. Lieberman provides an innovative guide to creating and implementing a new type of environmental education that combines standards based lessons on English language arts math history and science with community investigations and service learning projects By connecting academic content with local investigations environmental study becomes not simply another thing added to the classroom schedule but an engaging thought provoking context for learning multiple subjects The projects outlined in the book further students understanding of the way human and natural systems interact locally and globally and provide the next generation with the knowledge necessary for making decisions that will be critical to their future and ours

Community Engagement Program Implementation and Teacher Preparation for 21st Century Education Crosby, Cathryn, Brockmeier, Frederick, 2016-08-26 Education in the 21st century has been tasked with preparing students to begin the journey towards a place in their communities in which they feel fulfilled and autonomous Service learning is one way to introduce students to careers and knowledge that will prepare them for a successful life Community Engagement Program Implementation and Teacher Preparation for 21st Century Education examines the many ways in which community engagement is carried out in all educational settings from K 12 to higher education This publication is unique in its mission to examine these topics from a holistic perspective From online education to volunteer organizations this book gives educators administrators community volunteers and students a window into the successful deployment of such programs to prepare students for a global society

The Politics of Environmental Education Centres Anne Marie Ross, 2025-05-02 This book juxtaposes a representation of environmental education centres around the globe with centres within the New South Wales Department of Education in Australia As terminology shifted from nature study and conservation education to environmental education then environmental and sustainability education within sustainable development the centres embodied and encompassed this evolution The book traces the centres journeys through the phenomenon of the 1970s growth in socially conscious governance to 1980s 1990s public managerialism to the tightening tentacles of capitalism The complexity of education as a socio political endeavour is made explicit Themes including the changing dynamics of caring for the environment and bureaucratic and political manoeuvring in addition to the effects of activism and globalisation are viewed through a centre lens as the centres survive and thrive in ever increasing neoliberal times The book will appeal to teachers academics and bureaucrats interested in the history and politics of environmental education

Conservation Education and Outreach Techniques Susan Kay Jacobson, Mallory D. McDuff, Martha C. Monroe, 2015 The conservation of biological diversity depends on people s knowledge and actions This book presents the theory and practice for creating effective education and outreach programmes for conservation The authors describe an exciting array of techniques for enhancing school resources marketing environmental messages using social media developing partnerships for conservation

and designing on site programmes for parks and community centres Vivid case studies from around the world illustrate techniques and describe planning implementation and evaluation procedures enabling readers to implement their own new ideas effectively Conservation Education and Outreach Techniques now in its second edition and updated throughout includes twelve chapters illustrated with numerous photographs showing education and outreach programmes in action each incorporating an extensive bibliography Helpful text boxes provide practical tips guidelines and recommendations for further exploration of the chapter topics This book will be particularly relevant to conservation scientists resource managers environmental educators students and citizen activists It will also serve as a handy reference and a comprehensive text for a variety of natural resource and environmental professionals

Ecologizing Education Sean Blenkinsop, Estella C. Kuchta, 2024-04-15 Ecologizing Education explores how we can reenvision education to meet the demands of an unjust and rapidly changing world Going beyond green schooling programs that aim only to shape behavior Sean Blenkinsop and Estella Kuchta advance a pedagogical approach that seeks to instill eco conscious and socially just change at the cultural level Ecologizing education as this approach is called involves identifying and working to overcome anti ecological features of contemporary education This approach called ecologizing education aims to develop a classroom culture in sync with the more than human world where diversity and interdependency are intrinsic Blenkinsop and Kuchta illustrate this educational paradigm shift through the real world stories of two public elementary schools located in British Columbia They show that this approach to learning starts with recognizing the environmental and social injustices that pervade our industrialized societies By documenting how ecologizing education helps children create new relationships with the natural world and move toward mutual healing Blenkinsop and Kuchta offer a roadmap for what may be the most potent chance we have at meaningful change in the face of myriad climate crises Timely practical and ultimately inspirational Ecologizing Education is vital reading for any parent caregiver environmentalist or educator looking for wholistic education that places nature and the environment front and center

Place-based Curriculum Design Amy B. Demarest, 2014-10-30 Place based Curriculum Design provides pre service and practicing teachers both the rationale and tools to create and integrate meaningful place based learning experiences for students Practical classroom based curricular examples illustrate how teachers can engage the local and still be accountable to the existing demands of federal state and district mandates Coverage includes connecting the curriculum to students outside of school lives using local phenomena or issues to enhance students understanding of discipline based questions engaging in in depth explorations of local issues and events to create cross disciplinary learning experiences and creating units or sustained learning experiences aimed at engendering social and environmental renewal An on line resource www.routledge.com/9781138013469 provides supplementary materials including curricular templates tools for reflective practice and additional materials for instructors and students

Fostering an Ecological Shift Through Effective Environmental Education Kochetkova, Tatjana, 2024-06-05 In the face of our planet s

escalating environmental crisis and climate change humanity stands at a crossroads urgently requiring a transformative response The task of averting environmental destruction necessitates not only a shift in our economy and technology but more fundamentally a profound cultural transformation This imperative transformation involves a collective move from the self centered Ego to an ecologically conscious Eco To unravel the complexities of this metamorphosis scholars are turning to the potent tool of environmental education recognized for its capacity to foster personal and social growth while promoting environmental conservation Enter *Fostering an Ecological Shift Through Effective Environmental Education* a groundbreaking exploration into the transformative power of education in the pursuit of sustainable change As readers embark on this scholarly journey the book reveals the profound psychological connection to nature achievable through environmental education It scrutinizes the connection between heightened nature awareness and the adoption of sustainable practices providing valuable insights for educators at various levels The chapters traverse diverse topics from the historical roots of environmental education to the role of indigenous knowledge yoga and eco spirituality within nature education The book s comprehensive approach extends to eco therapy forest school programs and the influence of parents in environmental education By scrutinizing case studies and global movements this work illuminates the achievements and challenges of environmental education on both national and global scales
