## **Economics Of Development Theory And Evidence:**

*Economics of Development* A.P. Thirlwall, Penélope Pacheco-López, 2017-04-27 This edition represents the most thorough revision of this classic textbook to date For nearly 40 years it has offered students a clear comprehensive and rigorous overview of the economic aspects of growth and development      *Power, Property Rights, and Economic Development* Mohammad Dulal Miah, Yasushi Suzuki, 2018-11-19 This book presents a critical reassessment of theories of property rights in response to conflicts and competition between different groups and the state It does so by taking an institutional political perspective to analyse the structures of property rights with a focus on a series of case studies from Bangladesh In doing so the book highlights the importance of property rights for economic growth why developing countries often fail to design property rights conducive for economic development and the strategies required for designing an efficient structure of rights Since property rights falls within the domain of Law and Economics the book ventures to explain legal issues from an economic perspective resulting in empirical analysis that comprises both legal and non legal cases      *Rent Seeking and Development* Christine Ngoc Ngo, 2020-03-25 Rent seeking continues to be a topic of much discussion and debate within the political economy This new study challenges previous assumptions and sets out a new analysis of the dynamics of rent and rent seeking in development using Vietnam as a case study This book provides an alternative approach to the study of economic development and illuminates new perspectives in a contemporary context It argues that not only has there been an incomplete understanding of Vietnam s industrial development over the last three decades but that neoclassical economics do not adequately address many of the issues endangering Vietnam s development A significant observation of the Vietnamese experience is the analytical view that rents can be developmental and growth enhancing if the configuration of rent management incentivizes industrial upgrade and conditions firm performance Underlining the need to reexamine how economic actors and the state collaborate through formal and informal institutions this study fills a gap in the scholarship of the political economy of rent and rent seeking and how rents might be used for developmental purposes      *Handbook of Migration and Globalisation* Anna Triandafyllidou, 2024-04-12 This thoroughly revised and updated Handbook brings together an international range of contributors to highlight the deep interdependence between migration and globalisation and explore the impact of economic social and political globalisation on international population flows It provides an interdisciplinary perspective on a discussion that has been intensifying and diversifying over the past 25 years This title contains one or more Open Access chapters      *Rent Seeking in China* Tak-Wing Ngo, Yongping Wu, 2008-12-04 In China rent seeking has been linked to the idea of the local developmental state in which rapid economic development is explained in terms of the promotion of village and township enterprises by local cadres who wants to maximize revenue At the same time the rent seeking state is also seen as the root of corrupt practices and in the creation of a political market where state assets and authorities are diverted into private interests Despite the prevalence of rent seeking practices in present day China no

systematic study of the phenomenon across different regions and economic sectors has yet been undertaken and as such what accounts for the occurrence of the phenomenon what range of activities are related to rent seeking practices and more importantly how rent seeking shapes political and economic development are barely understood Rent Seeking in China seeks to address these questions using case studies from across economics sectors including primary industry strategic industry heavy industry and light industry It will be invaluable reading for students and scholars of Chinese politics comparative politics and Chinese economic and business management

**Rents, Rent-Seeking and Economic Development** Mushtaq Husain Khan, Jomo Kwame Sundaram, 2000-09-07 The concepts of rents and rent seeking are central to any discussion of the processes of economic development Yet conventional models of rent seeking are unable to explain how it can drive decades of rapid growth in some countries and at other times be associated with spectacular economic crises This book argues that the rent seeking framework has to be radically extended by incorporating insights developed by political scientists institutional economists and political economists if it is to explain the anomalous role played by rent seeking in Asian countries It includes detailed analysis of Thailand Malaysia the Philippines the Indian sub continent Indonesia and South Korea This new critical and multidisciplinary approach has important policy implications for the debates over institutional reform in developing countries It brings together leading international scholars in economics and political science and will be of great interest to readers in the social sciences and Asian studies in general

**The Origins of Development Economics** Jomo Kwame Sundaram, Erik S. Reinert, 2005-09 Historically much economic thought especially until the 1960s has been preoccupied with development economics In the second half of the 20th century narrow abstract approaches displaced historically informed discourses marginalizing greater appreciation of history and the social sciences The contributors cover mercantilism as associated with Italian city states and in the later German economic tradition the history of debate over capitalist transformation and the impact of modern growth theory and international trade on pioneering development economists

countries using the striking variation in economic performance as a starting point African Economic Development Evidence Theory and Policy highlights not only difference between countries but also variation within countries It focuses on issues relating to gender class and ethnic identity such as neo natal mortality school dropout and horticultural and agribusiness exports Variations in these areas point to opportunities for changing performance reducing reducing inequalities learning from other policy experiences and escaping the ties of structure and the legacies of a colonial past African Economic Development rejects teleological illusions and Eurocentric prejudice criticizing a range of orthodox and heterodox economists for their cavalier attitude to evidence Instead it shows that seeing the contradictions of capitalism for what they are fundamental and enduring may help policy officials protect themselves against the misleading idea that development can be expected to be a smooth linear process or that it would be if certain impediments were removed Drawing on decades of research and policy experience this book combines careful use of available evidence from a range of African countries with economic insights to make the policy case for specific types of public sector investment **Journal of Economic Dynamics & Control** ,1991 *American Doctoral Dissertations* ,1994 *The Process of Economic Development* James M.
