## **Education And Racism A Primer On Issues And Dilemmas:**

Education and Racism Zeus Leonardo, W. Norton Grubb, 2013-09-11 Education and Racism is a concise and easily accessible primer for introducing undergraduate and graduate students to the field of race and education. Designed for introductory courses, each chapter provides an overview of a main issue or dilemma in the research on racial inequality and education and the particular approaches that have been offered to explain or address them. Theme-oriented chapters include curriculum, school re-segregation and high stakes testing, as well as discussions on how racism intersects with other forms of marginality like socio-economic status. The focus on particular educational themes is the strength of this book as it paints a portrait of the systematic nature of racism. It surveys multiple approaches to racism and education and places them in conversation with one another, incorporating both classical as well as contemporary theories. Although conceptually rich and dense with critical perspectives and empirical study, the book uses clear and transparent language throughout for easy comprehension. Perfect for courses in Multicultural Education, Sociology of Education, Ethnic Studies, and more, Education and Racism is the ideal primer for engaging students new to race and education without sacrificing the content for those who are already familiar with the field.

**DisCrit—Disability Studies and Critical Race Theory in Education** David J. Connor, Beth A. Ferri, Subini A. Annamma, 2016 This groundbreaking volume brings together major figures in Disability Studies in Education (DSE) and Critical Race Theory (CRT) to explore some of today's most important issues in education. Scholars examine the achievement opportunity gaps from both historical and contemporary perspectives, as well as the overrepresentation of minority students in special education and the school-to-prison pipeline. Chapters also address school reform and the impact on students based on race, class, and disability, and the capacity of law and policy to include and exclude. Readers will discover how some students are included and excluded within schools and society, why some citizens are afforded expanded or limited opportunities in life, and who moves up in the world and who is trapped at the bottom of the well. Contributors: D. L. Adams, Susan Baglieri, Stephen J. Ball, Alicia Broderick, Kathleen M. Collins, Nirmala Erevelles, Edward Fergus, Zanita E. Fenton, David Gillborn, Kris Guitierrez, Kathleen A. King, Thorius Elizabeth Kozleski, Zeus Leonardo, Claustina Mahon, Reynolds, Elizabeth Mendoza, Christina Paguyo, Laurence Parker, Nicola Rollock, Paolo Tan, Sally Tomlinson, and Carol Vincent. With a stunning set of authors, this book provokes outrage and possibility at the rich intersection of critical race, class, and disability studies, refracting back on educational policy and practices, inequities and exclusions, but marking also spaces for solidarities. This volume is a must-read for preservice and long-term educators as the fault lines of race, disability, and class meet in the belly of educational reform movements and educational justice struggles. Michelle Fine, distinguished professor of Critical Psychology and Urban Education, The Graduate Center, CUNY. Offers those who sincerely seek to better understand the complexity of the intersection of race, ethnicity, disability, social class, and gender a stimulating read that sheds new light on the root of some of our long-standing societal and educational inequities.
