Dynamic Capacity Management For Healthcare Advanced Methods And Tools For Optimization:

Dynamic Capacity Management for Healthcare Pierce Story, 2010-12-08 While hospitals can learn from other industries they cannot be improved or run like factories With work that is more individualized than standardized and limited control over volume and arrivals even the leanest minded hospital must recognize that healthcare systems are more dynamic than nearly any work environment Written with the creativity n

Optimizing Your Capacity to Care Pierce Story, MPHM, 2017-12-19 Our nation s capacity to care is becoming increasingly stressed as an aging and increasingly unhealthy population collides with a relative reduction in the numbers of clinicians and ever tightening financial resources If even the mildest of future state predictions are to be believed we need a significant restructuring of our entire healthcare system and its total Capacity to Care such that we can simultaneously improve care capacity cost quality accessibility and resource gratification

Optimizing Your Capacity to Care A Systems Approach to Hospital and Population Health Management provides comprehensive guidance to a new way to optimize and manage community wide Care Capacity via a unique holistic approach to healthcare operations Through clear examples and actual project results the book demonstrates the outcomes of a systems level way of thinking about a community s Capacity to Care that incorporates and integrates the full spectrum of available clinical and communal resources into the care of patients including hospitals physicians emergency departments surgical services local churches civic organizations pharmacies and volunteers The book details operational models for each major department of the hospital and a fully integrated communal resource pool to demonstrate how the optimization of capacity resource utilization cost and clinical outcomes can be attained And by providing healthcare leaders with a deeper understanding of key elements missing from the most common process improvement methodologies and approaches this book offers fresh perspectives and bold alternatives for hospitals health systems and entire communities

Developing a Poly-Chronic Care Network Pierce Story, MPHM, 2012-10-29 Although much has been achieved in care coordination and accountable care healthcare leaders need additional game changing innovations to deal with constraints in clinical resources care capacity and cost that have not yet been fully addressed This need for innovation is especially great in the care of the chronically ill the most costly highest risk segments of our populations Filling this void

Developing a Poly Chronic Care Network An Engineered Community Wide Approach to Disease Management reconstructs and augments traditional chronic care delivery models The proposed solution the Poly Chronic Care Network PCCN is a specific iteration of the Care Circle Network CCN concept that creates a sustainable community engaging response to the complexity cost and outcomes of chronic diseases By dynamically engineering all the elements of a community s Capacity to Care directly into short and long term patient care processes the PCCN expands care capacity and physician reach and improves quality and outcomes without increasing the total cost of care The book describes the fundamental concepts principles and requirements for the PCCN and explains how this care model could augment and enhance other new business models such as Accountable Care

Organizations ACOs and Patient Centered Medical Homes PCMHs In addition to a detailed description of implementation steps and organizational structures the text provides useful insights into technologies that can aid and enhance implementation including home virtual monitoring social networking and dynamic simulation Importantly the book includes both detailed examples and a flexible how to guide for setting up a PCCN or other CCN offering readers step by step guidelines and options for combining readily available communal resources with simple technologies in the design of innovative care models for their communities With this book in hand readers can confidently pick and choose specific components to match their community s needs and capabilities amending the blend to account for the size scale scope and population of the community and patients they wish to serve
