comprehensively compile the current developments and recent advancements in the field of zooarchaeology from Neanderthal contexts We welcome original research systematic review methods review hypothesis theory article types as well as mini reviews perspectives case reports and brief research reports Areas to be covered in this Research Topic may include but are not limited to Large and small prey use by Neanderthals e g food raw materials ornamentation Neanderthal provisioning strategies of faunal resources Neanderthal processing activities of faunal resources Neanderthal preservation and storing of faunal resources Neo taphonomic experimentations with faunal specimens
