Early Christian Rhetoric Amos N. Wilder, 2014-05-06 An illuminating New Testament study depicts the power and beauty of language that speaks with the words of God and man Words call man to battle or summon him to prayer More and more today man is analyzing his language and asking What is the purpose of language What do the words we speak mean What is their religious significance Dr Wilder s extraordinary work attempts to answer these questions and in particular to study the qualities of the language that ushered in a new religion the early Christian faith *Integrating Work in Theological Education* Kathleen A. Cahalan, Edward Foley, Gordon S. Mikoski, 2017-03-09 If only we could do a better job of helping students at connecting the dots theological educators commonly lament Integration often proposed as a solution to the woes of professional education for ministry would help students integrate knowledge skills spirituality and integrity When these remain disconnected incompetence ensues and the cost runs high for churches denominations and ministers themselves However we fail in thinking that integrating work is for students alone It is a multifaceted constructive process of learning that is contextual reflective and dialogical It aims toward important ends competent leaders who can guide Christian communities today It entails rhythms not stages and dynamic movement including disintegration Integrating work is learning in motion across domains and among and between persons It is social and communal born of a life of learning together for faculty staff administrators and students It is work that bridges the long standing gaps between school ministry practice and life It s a verb not a noun Here a diverse group of theological educators through descriptive case studies theological reflection and theory building offer a distinctive contribution to understanding integrating work and how best to achieve it across three domains in community curriculums and courses *Union Catalog of the Graduate Theological Union* Graduate Theological Union. Foundations of Christian Music Edward Foley, 2020-07-09 In the study of Christian liturgical music the first three centuries of the Christian era are foundational Seldom however does this period receive serious attention from scholars One of the reasons for this oversight is the fluid auditory environment of this period and the inadequacy of the Western concept of music to describe this environment *Foundations of Christian Music* addresses this lacuna by exploring the auditory environment of first century CE Judaism and emerging Christianity until the time of Constantine d 337 Through a consideration of the text styles forms performance and settings of Jewish and early Christian worship *Foundations* offers an unusually rich perspective on the lyrical nature of emerging Christian worship **The Christianity Reader** Mary Gerhart, Fabian Udoh, 2007-09 Christianity is the world s most populous religion with some two billion adherents As a world religion Christianity has flourished because it is capable of taking on new forms in new contexts To understand both the religion s history and its present state Mary Gerhart and Fabian Udoh gather original texts from early Christian writings to

contemporary documents on church related issues in The Christianity Reader The most comprehensive anthology of Christian texts ever in English this is a landmark sourcebook for the study of Christianity s historical diversity With newly edited annotated and translated primary texts along with supplemental analytical essays the volume allows Christianity at long last to speak in its many voices Focusing on Christianity as a religion Gerhart and Udoh select texts that illuminate issues such as theology mysticism and ritual while also articulating the stories of previously marginalized groups as well as those in new and growing epicenters of the religion With nearly three hundred selections the texts encompass the entire history of Christian writings excluding the New Testament from Justin Martyr and Tertullian to Fabien Eboussi Boulaga and Teresa of Calcutta Eight thematic sections cover biblical traditions and interpretations early influences nascent forms patterns of worship structures of community philosophy theology and mysticism twentieth century issues and challenges and the contemporary relationship between Christianity and other world religions The Reader s contents are arranged chronologically and are supported with introductions and source notes that explain the rationale for their inclusion and their context Providing a far richer selection than ever before available in a single volume The Christianity Reader will be welcomed as both a classroom resource and a work of reference for decades to come *The National Union Catalogs, 1963-*
