Decision Support for Team Staffing Jochen

Malinowski,2012-02-24 How can the selection of individuals to configure teams be improved with the help of information technology Due to organizational trends team based work structures gain importance and increase the demand for staffing highly effective teams However existing human resource management systems have often not yet been adapted to support HR decision makers in this task and IS support for team staffing is rather scarce Existing systems only consider whether a person has the required technical skills and abilities for a job Those systems 1 are not able to capture the latent aspects that typically underlie personnel selection decisions 2 do not consider candidate preferences and 3 especially neglect to consider the match between the person and the team members in terms of interpersonal compatibility This book presents a decision support system based on an automated recommendation approach for providing a pre selection of candidates that fit best with a specific job and with future team members The system contributes to literature by proposing an IS supported approach for the selection of individuals for teams and to practice by offering time and cost savings for HR professionals
