Marsh,2021-04-12 This book presents a new analysis of Aristotle s concept of narrative in the Poetics Arguing that the term muthos in the Poetics cannot be understood as equivalent to plot Marsh shows that the muthos concept is instead a useful tool for grouping larger sets of narratives based on specific criteria The results of this muthos analysis indicate that in the classical period neither formal structure nor the structure of events was determined by theatrical genre but by the specific combination of tone and plot type Marsh concludes that the category of genre itself may be less helpful for classifying these plays than is typically assumed      **Essential Fiction, Stage 3** Pearson Education,Sylvia Karavis,2004-03 A complete solution for literacy at Key Stage 2      **In the Beginning** ,1984      **A Handbook of Children's Literature, Methods and Materials** Emelyn Elizabeth Gardner,Eloise Ramsey,1927      The Beginner's Guide to Constructing the Universe Michael S. Schneider,1995-09-29 The Universe May Be a Mystery But It s No Secret Michael Schneider leads us on a spectacular lavishly illustrated journey along the numbers one through ten to explore the mathematical principles made visible in flowers shells crystals plants and the human body expressed in the symbolic language of folk sayings and fairy tales myth and religion art and architecture This is a new view of mathematics not the one we learned at school but a comprehensive guide to the patterns that recur through the universe and underlie human affairs A Beginner s Guide to Constructing the Universe shows you Why cans pizza and manhole covers are round Why one and two weren t considered numbers by the ancient Greeks Why squares show up so often in goddess art and board games What property makes the spiral the most widespread shape in nature from embryos and hair curls to hurricanes and galaxies How the human body shares the design of a bean plant and the solar system How a snowflake is like Stonehenge and a beehive like a calendar How our ten fingers hold the secrets of both a lobster and a cathedral And much more      How to Read a Myth William Marderness,2009 In this important contribution to the scholarly study of myth philosopher William Marderness articulates a comprehensive theory of myth that accounts for the diverse interpretations of Eliade Barthes and others      **Don't Know Much About® Mythology** Kenneth C. Davis,2009-12-29 In this fascinating installment of the New York Times bestselling Don t Know Much About series

Kenneth C Davis explores the great myths of the world and their implications for art science religion and culture throughout history What is an Egyptian pyramid doing on the U S dollar bill Did a pharaoh inspire Moses to worship one God What s a Canaanite demoness doing at a rock concert Since the beginning of time people have been insatiably curious They ve asked questions about where we come from why the stars shine and the seasons change and what constitutes evil The imaginative answers crafted by our ancestors have served as religion science philosophy and popular literature In an engaging and delightfully irreverent question and answer style Davis tackles the epic of Gilgamesh Achilles and the Trojan War Stonehenge and the Druids Odin Thor and the entire Norse pantheon Native American myths and much more including the dramatic life and times of the man who would be Buddha From Mount Olympus to Machu Picchu here is an insightful lively look at the greatest stories ever told *In the Beginning* Bernard F. Batto,2013-05-01 Bernard F Batto spent the bulk of his career examining the ancient Near Eastern context of the Hebrew Bible with particular interest in the influence of the surrounding cultures on the biblical creation stories This collection gathers six of his most important previously published essays and adds two new contributions Among the essays Batto identifies various creation motifs prevalent in the ancient Near East and investigates the reflexes of these motifs in Genesis 1 11 and other biblical accounts of the primeval period He demonstrates how the biblical writers adapted and responded to the creation ideas of Mesopotamia Egypt Ugarit and elsewhere The articles in the volume were written as independent essays Nevertheless they are united by theme Throughout Batto makes clear his understanding of the Hebrew Bible as a patently unique text yet one that cannot possibly be understood independent of greater cultural sphere in which it developed *In the Beginning* will serve as an indispensable resource for those interested in both the biblical ideas of creation and the mythology of the ancient Near East that influenced them
