Family Violence in the United States Denise A. Hines, Kathleen Malley-Morrison, Leila B. Dutton, 2012-12-04 Rich in scholarly references and case materials, *Family Violence in the United States: Defining, Understanding, and Combating Abuse*, Second Edition, by Denise A. Hines and Kathleen Malley-Morrison is a thought-provoking book that encourages students to question assumptions, evaluate information, formulate hypotheses, and design solutions to problems of family violence in the United States. Using an ecological framework, the authors provide an informative discussion of not only of the most well-recognized forms of maltreatment in families but also of less understood and more controversial issues such as husband abuse, parent abuse, and gay/lesbian abuse. It reviews and evaluates major efforts at intervention and prevention.

Encyclopedia of Victimology and Crime Prevention Bonnie S. Fisher, Steven P. Lab, 2010-02-02 Victimology and crime prevention are growing interrelated areas cutting across several disciplines. Victimology examines victims of all sorts of criminal activity from domestic abuse to street violence to victims in the workplace who lose jobs and pensions due to malfeasance by corporate executives. Crime prevention is an important companion to victimology because it offers insight and techniques to prevent situations that lead to crime and attempts to offer ideas and means for mitigating or minimizing the potential for victimization. In many ways the two fields have developed along parallel yet separate paths and the literature on both has been scattered across disciplines as varied as sociology, law, and criminology, public health and medicine, political science and public policy, economics, psychology, and human services, and more. The *Encyclopedia of Victimology and Crime Prevention* provides a comprehensive reference work bringing together such dispersed knowledge as it outlines and discusses the status of victims within the criminal justice system and topics of deterring and preventing victimization in the first place and responding to victims' needs. Two volumes containing approximately 375 signed entries provide users with the most authoritative and comprehensive reference resource available on victimology and crime prevention both in terms of breadth and depth of coverage. In addition to standard entries, leading scholars in the field have contributed Anchor Essays that in broad strokes provide starting points for investigating the more salient victimology and crime prevention topics. A representative sampling of general topic areas covered includes interpersonal and domestic violence, child maltreatment and elder abuse, street violence, hate crimes, and terrorism, treatment of victims by the media, courts, police, and politicians, community response to crime victims, physical design for crime prevention, victims of nonviolent crimes, deterrence and prevention, helping and counseling crime victims, international and comparative perspectives, and more.

Gender Inclusive Treatment of Intimate Partner Abuse John Hamel, 2005-02-08 This breakthrough handbook for mental health professionals and educators offers practical, hands-on information for conducting assessments and providing treatments that take the entire family system into account. Rich with

research that shows women are abusive within relationships at rates comparable to men the book eschews the field's reliance on traditional domestic violence theory and treatment which favors violence interventions for men and victim services for women and ignores the dynamics of the majority of violent relationships Thus the author identifies and measures protocols that help practitioners make accurate assessments for both men and women and then carefully selects the treatment modality and curricula for group couples and or individual work that will help clients break their particular cycle of violence while ensuring victim safety
