Faithful Learning And The Christian Scholarly Vocation:

Faithful Learning and the Christian Scholarly Vocation Douglas V. Henry, Bob R. Agee, 2003 Christian scholars and teachers everywhere are exploring ever more fully the relationship between Christian faith and the various academic disciplines In this book leading voices in the Christian academy provide a solid theological foundation for understanding the aims and practice of faith and learning integration especially within church related institutions and also discuss some major challenges and opportunities facing Christian higher education in the twenty first century From publisher s description

Christian Faith, Formation and Education Ros Stuart-Buttle, John Shortt, 2017-11-13 This book discusses the relationship between faith formation and education Rooted in a variety of discourses the book offers original insights into the education and formation of the human person both theoretical and practical Issues are considered within a context of contemporary tensions generated by an increasingly pluralist society with antipathy to religious faith and debated from interdenominational Christian perspectives Including chapters by an international team of experts the volume demonstrates how Christian faith holds significance for educational practice and human development It argues against the common assumption that there can be a neutral approach to education whilst at the same time advocating a critical dimension to faith education It brings fresh thinking about faith and formation which demands attention given the fast changing political educational and socio cultural forces of today It will appeal to students and researchers involved in Christian educational practice *Joining the Mission*

Susan VanZanten, 2011-02-18 *Joining the Mission* is a helpful guide for new and experienced faculty at religious colleges and universities Susan VanZanten here provides an orientation to the world of Christian higher education and an introduction to the academic profession of teaching scholarship and service with a special emphasis on opportunities and challenges common to mission driven institutions From designing a syllabus to dealing with problem students from working with committees to achieving a balanced life VanZanten s guidebook will help faculty across the disciplines Art to Zoology and every subject between understand better what it means to pursue faithfully a vocation as professor Susan VanZanten s *Joining the Mission* is an exceptional resource for all faculty members at Christian colleges and universities While it is a very practical guide to teaching at a university the book also helps the reader understand and wrestle with the nuances of what it means to be a faculty member at a mission driven institution I appreciate VanZanten s contribution to articulating why mission is important at our institutions why we care about it so much and how we can better accomplish it Thomas Cedel President Concordia University Texas Spirituality in College Students' Lives Alyssa Bryant Rockenbach, Matthew J.

A Theology of Higher Education Mike Higon, 2012-03-16 In this book Mike Higon provides a constructive critique of Higher Education policy and practice in the UK the US and beyond from the standpoint of Christian theology He focuses on the role universities can and should play in forming students and staff in intellectual virtue in sustaining vibrant communities of inquiry and in serving the public good He argues both that modern secular universities can be a proper context for Christians to pursue their calling as disciples to learn and to teach and that Christians can contribute to the flourishing of such universities as institutions devoted to learning for the common good In the process he sets out a vision of the good university as secular and religiously plural as socially inclusive and as deeply and productively entangled with the surrounding society Along the way he engages with a range of historical examples the medieval University of Paris the University of Berlin in the nineteenth century and John Henry Newman's work in Oxford and Dublin and with a range of contemporary writers on Higher Education from George Marsden to Stanley Hauerwas and from David Ford to Rowan Williams

The Future of Baptist Higher Education Donald D. Schmeltekopf, Dianna M. Vitanza, 2006 The Future of Baptist Higher Education investigates four key issues that inform Baptist efforts at higher education the denominational conflict that has afflicted Baptists since the 1980s the secularization of higher education in America the dominance of the market driven tendencies in American higher education today and the meaning of Christian higher education but more specifically the meaning of Baptist higher education This volume clearly illustrates that the meaning of Baptist and Christian higher education as with the Christian life itself is far more complex than any one imperial interpretation

God's Word in Human Words Kenton L. Sparks, 2008-03-01 The conclusions of critical biblical scholarship often pose a disconcerting challenge to traditional Christian faith Between the two poles of uncritical embrace and outright rejection of these conclusions is there a third way Can evangelical believers incorporate the insights of biblical criticism while at the same time maintaining a high view of Scripture and a vital faith In this provocative book Kenton Sparks argues that the insights from historical and biblical criticism can indeed be valuable to evangelicals and may even yield solutions to difficult issues in biblical studies while avoiding pat answers This constructive response to biblical criticism includes taking seriously both the divine and the human aspects of the Bible and acknowledging the diversity that exists in the biblical texts
