Rymer, 2015-01-05 Justice is truth When a neighbor Tim Bartin is killed and another neighbor Joe Miller is charged with the shooting Adair McGee is advised to let the judicial process work The lack of official information about the case leads to the use of social media as the main resource for information and polarizes the community Adair is advised that the truth will come out in the end When it doesn't she looks for answers How could a man who was not hunting be charged by the Pennsylvania Game Commission with three violations of the hunting code Why did the District Attorney bring this incident classified as a misdemeanor to the court Why when the state's evidence seemed to absolve the accused was the case prosecuted Was the District Attorney seeking the truth or a conviction Who shot Tim Bartin and why This story proves once again that fact is stranger than fiction *Criminal Evidence* Jefferson L. Wrongful Convictions and Miscarriages of Justice C. Ronald Huff, Martin Killias, 2013-03-05

This innovative work builds on Huff and Killias' earlier publication (2008) but is broader and more thoroughly comparative in a number of important ways. 1 while focusing heavily on wrongful convictions, it places the subject of wrongful convictions in the broader contextual framework of miscarriages of justice and provides discussions of different types of miscarriages of justice that have not previously received much scholarly attention by criminologists. 2 it addresses in much greater detail the questions of how and how often wrongful convictions occur. 3 it provides more in-depth consideration of the role of forensic science in helping produce wrongful convictions and in helping free those who have been wrongfully convicted. 4 it offers new insights into the origins and current progress of the innocence movement as well as the challenges that await the exonerated when they return to free society. 5 it assesses the impact of the use of alternatives to trials, especially plea bargains, in the U.S. and summary proceedings and penal orders in Europe in producing wrongful convictions. 6 it considers how the U.S. and Canada have responded to 9/11 and the increased threat of terrorism by enacting legislation and adopting policies that may exacerbate the problem of wrongful conviction. 7 it provides in-depth considerations of two topics related to wrongful conviction: voluntary false confessions and convictions which, although technically not wrongful since they are based on law violations, represent another type of miscarriage of justice since they are due solely to unjust laws resulting from political repression.

Overtaking Wrongful Convictions

Elizabeth A. Murray, PhD, 2015-01-01

Imagine being convicted of a crime you didn't commit and spending years behind bars. Since 1989, more than 1,400 Americans who experienced this injustice have been exonerated. Some of the people who have won their freedom include Ronald Cotton, who was falsely convicted of raping a college student; Nicole Harris, who was unjustly imprisoned for the death of her son; and intellectually disabled Earl Washington Jr., who was unfairly sentenced to death for the rape and murder of a young mother. Wrongful convictions shatter lives and harm society by allowing real perpetrators to potentially commit additional crimes. How can such injustices happen? *Overtaking Wrongful Convictions* recounts stories of individuals who served someone else's prison time due to mistaken eyewitness identification, police misconduct, faulty forensic science, poor legal representation, courtroom
